ENCROACHMENT PERMIT INFORMATION EFFECTIVE 2022

GENERAL INFORMATION

An Encroachment Permit is required for any operation or construction in any public right-of-way (Title 7, Chapter 2 of the Antioch Municipal Code).

[http://library.amlegal.com/nxt/gateway.dll/California/antioch/cityofantiochcaliforniacodeofordinances?f=temp_lates\\$fn=default.htm\\$3.0\\$vid=amlegal:antioch_ca](http://library.amlegal.com/nxt/gateway.dll/California/antioch/cityofantiochcaliforniacodeofordinances?f=temp_lates$fn=default.htm$3.0$vid=amlegal:antioch_ca)

Each request for an Encroachment Permit shall be submitted on an Encroachment Permit Application Form and must be accompanied by payment of appropriate application, inspection and bond fees. **The application shall include site plans or a sketch drawing of the proposed work, showing how that work relates to existing public improvements.** Particular attention should be paid to the location of fire hydrants, water meters, sanitary sewer cleanouts, driveways, street lights, etc.

Upon receipt of an application for Encroachment Permit, staff will review the request and, in most cases, will review the site of the proposed work to ensure that the work will not interfere with existing public improvements. After this review, the City Engineer or his authorized agent, will approve or deny the requested permit.

Should the application be for construction of a substantial, long-term improvement (retaining walls, concrete fences, planters, etc.) within the right-of-way, an Encroachment Agreement may be required. The Encroachment Agreement will be reviewed by the City Engineer and, upon approval may be recorded in the Office of the County Recorder. Note that approval of such substantial improvements within the right of way will only be made in cases where the property owner suffers a hardship not suffered by other similar property owners.

Encroachment Permits may ONLY be issued to owners of adjacent property or to contractors licensed by the State. All contractors are required to have current STATE AND CITY BUSINESS LICENSES.

Approved Traffic Control Plans are required for work in travel lanes, including pedestrian travel. All dimensions shall be reflected on plans, including taper length, width, signs, sign spacing, etc. All TCP shall be in compliance with MUTCD Standards. <https://dot.ca.gov/programs/traffic-operations/camutcd> On all arterial and collector roadways, site specific traffic control plans are required.

REQUIREMENTS

1. Submit completed Encroachment Permit Application Form, site plans and traffic control plans.
2. Deposit with the City cash/check or an acceptable surety bond in the amount of 100% of the job valuation or \$500.00, whichever is greater, guaranteeing faithful performance of the work covered by the Encroachment Permit. This bond is refundable upon satisfactory completion of the work. Bond will be refunded approximately 2-3 weeks from final permit date.

3. Submit evidence of public liability insurance in the minimum amount of \$1,000,000 and property damage in the minimum amount of \$50,000. **Insurance shall name the City of Antioch as a named insured.**
4. Pay required applicable fees as specified under Public Works section of the City's Master Fee Schedule, labeled Engineering Fees. Full fee schedule is available online at <https://www.antiochca.gov/finance-department/>. Upon approval of the application, all payments will be deposited and receipt will be provided with the approved encroachment permit packet.
5. Provide Contractors State and City Business Licenses.
