

DRAFT GROUNDWATER SUSTAINABILITY PLAN AND PUBLIC MEETING

The East Contra Costa Groundwater Sustainability Working Group is preparing a Draft Groundwater Sustainability Plan (Plan) and seeks input on the first two sections of the document. The East Contra Costa Groundwater Subbasin is a medium priority subbasin, as determined by the State, and requires preparation of a Plan under the 2014 Sustainable Groundwater Management Act (SGMA).

Sections 1 and 2 of the Draft Plan discuss the purpose of the Plan, the sustainability goal, the planning area, current and historical water and land uses, and information on groundwater wells in the East Contra Costa Groundwater Subbasin. You may comment on the document without attending the meeting. Sections 1 and 2 are found at the link below, or email groundwaterinfo@dcd.cccounty.us and request the document. Comments are due on July 20, 2020.
