# ANNOTATED <br> AGENDA <br> CITY OF ANTIOCH PLANNING COMMISSION <br> ANTIOCH COUNCIL CHAMBERS 200 "H" STREET <br> WEDNESDAY, FEBRUARY 20, 2019 <br> 6:30 P.M. <br> NO PUBLIC HEARINGS WILL BEGIN AFTER 10:00 P.M. <br> UNLESS THERE IS A VOTE OF THE PLANNING COMMISSION <br> TO HEAR THE MATTER 

## APPEAL

All items that can be appealed under 9-5.2509 of the Antioch Municipal Code must be appealed within five (5) working days of the date of the decision. The final appeal date of decisions made at this meeting is 5:00 p.m. on WEDNESDAY, FEBRUARY 27, 2019.

If you wish to speak, either during "public comments" or during an agenda item, fill out a Speaker Request Form and place in the Speaker Card Tray. This will enable us to call upon you to speak. Each speaker is limited to not more than 3 minutes. During public hearings, each side is entitled to one "main presenter" who may have not more than 10 minutes. These time limits may be modified depending on the number of speakers, number of items on the agenda or circumstances. No one may speak more than once on an agenda item or during "public comments". Groups who are here regarding an item may identify themselves by raising their hands at the appropriate time to show support for one of their speakers.

## PLEDGE OF ALLEGIANCE

## PUBLIC COMMENTS

## CONSENT CALENDAR

All matters listed under Consent Calendar are considered routine and are recommended for approval by the staff. There will be one motion approving the items listed. There will be no separate discussion of these items unless members of the Commission, staff or the public request specific items to be removed from the Consent Calendar for separate action.

1. APPROVAL OF MINUTES: None

END OF CONSENT CALENDAR

## NEW PUBLIC HEARING

2. UP-18-18, V-19-01, AR-18-18 - Event Center and Lounge - Prince Nwosu requests approval of a use permit to operate an event center for special events and live entertainment for up to 300 people. The applicant is requesting a variance from the separation requirements in order to operate an on-sale alcohol location within 500 feet of a community center. The applicant also requests design review for minor exterior changes to the building including new windows and paint, an approximately 199 square foot addition to the rear of the building, an exterior staircase, and a roof deck at the rear of the building. On the adjoining vacant lot, the applicant proposes to add a new gazebo and faux-grass. The subject property is located at 509 West $2^{\text {nd }}$ Street and the adjoining vacant lot (APNs 066-053-009 and 066-053-014).

RESOLUTION NO. 2019-05

NEW ITEM
3. AR-18-23 - Vineyards at Sand Creek Amenity Building - Century Communities requests design review approval of an Amenity Building and landscaping for Phase I through Phase III as well as streetscape landscaping for Heidorn Ranch Road and Hillcrest Avenue for the Vineyards at Sand Creek Project (APNs 057-030-003 and 057-050-007).

RESOLUTION NO. 2019-06

ORAL COMMUNICATIONS

## WRITTEN COMMUNICATIONS

## COMMITTEE REPORTS

## ADJOURNMENT 7:32 p.m.

## Notice of Availability of Reports

This agenda is a summary of the discussion items and actions proposed to be taken by the Planning Commission. For almost every agenda item, materials have been prepared by
the City staff for the Planning Commission's consideration. These materials include staff reports which explain in detail the item before the Commission and the reason for the recommendation. The materials may also include resolutions or ordinances which are proposed to be adopted. Other materials, such as maps and diagrams, may also be included. All of these materials are available at the Community Development Department located on the $2^{\text {nd }}$ floor of City Hall, 200 "H" Street, Antioch, California, 94509, between the hours of 8:00 a.m. and 5:00 p.m. Monday through Friday for inspection and copying (for a fee) or on our website at:
https://www.antiochca.gov/fc/community-development/planning/Project-Pipeline.pdf
Copies are also made available at the Antioch Public Library for inspection. Questions on these materials may be directed to the staff member who prepared them, or to the Community Development Department, who will refer you to the appropriate person.

## Notice of Opportunity to Address the Planning Commission

The public has the opportunity to address the Planning Commission on each agenda item. You may be requested to complete a yellow Speaker Request form. Comments regarding matters not on this Agenda may be addressed during the "Public Comment" section on the agenda.

## Accessibility

The meetings are accessible to those with disabilities. Auxiliary aids will be made available for persons with hearing or vision disabilities upon request in advance at (925) 779-7009 or TDD (925) 779-7081.

## STAFF REPORT TO THE PLANNING COMIMISSION

FOR CONSIDERATION AT THE MEETING OF FEBRUARY 20, 2019

Date:
February 15, 2019
Subject:
509 West $2^{\text {nd }}$ Street Event Center (UP-18-18, V-19-01, AR-18-18)

## RECOMIMENDATION

It is recommended that the Planning Commission APPROVE a Use Permit for an event center, a Variance from separation requirements between an on-sale alcohol location and a community center, and Design Review of minor exterior façade changes, an approximately 199 square foot rear building addition, an exterior staircase, a roof deck to the rear of the building, and a gazebo on the adjoining vacant lot subject to the conditions contained in the attached resolution.

## REQUEST

Prince Nwosu requests approval of a use permit to operate an event center for special events and live entertainment for up to 300 people. The applicant is requesting a variance from the separation requirements in order to operate an on-sale alcohol location within 500 feet of a community center. The applicant also requests design review for minor exterior changes to the building including new windows and paint, an approximately 199 square foot addition to the rear of the building, an exterior staircase, and a roof deck at the rear of the building. On the adjoining vacant lot, the applicant proposes to add a new gazebo and faux-grass. The subject property is located at 509 West $2^{\text {nd }}$ Street and the adjoining vacant lot (APNs 066-053-009 and 066-053-014).

## 2

## ENVIRONMENTAL

This project is Categorically Exempt from the provisions of CEQA, pursuant to Section 15301 - Existing Facilities. This section of CEQA exempts projects that:

- Consist of the operation of existing public or private structures.
- Additions to existing structures provided that the addition will not result in an increase of more than 50 percent of the floor area of the structures before the addition, or 2,500 square feet, whichever is less.

## ANALYSIS

## Issue \#1: Project Overview

The applicant proposes to operate an event center for events such as birthday parties, weddings, and graduation parties. The applicant proposes using both floors of the building as well as the neighboring vacant parcel for events. The event center will provide catering facilities for outside food vendors and bartenders, according to the applicant's project description. The floorplan also shows a platform, which appears appropriate for a stage and live entertainment.

The applicant originally proposed including a beer and wine bar element at the site in conjunction with the event center. Due to limitations placed on a bar by Alcoholic Beverage Control ( $A B C$ ), the applicant has withdrawn the bar request from his application. The applicant is still proposing for customers that rent the event center to have alcohol supplied through a caterer, which ABC would allow.

The adjacent vacant parcel is also owned by the applicant and is proposed to be used as part of the event center. The applicant is proposing a 1,127 square foot gazebo to be placed in the empty lot. Currently, the lot is entirely paved.

The proposed hours of operation are 11 am to 1 am , seven days a week. To start, the applicant states the business will employ three full time employees and two part-time employees. Staff has added a recommended condition of approval that the operations for the event center would cease at midnight, in order to limit the impact to surrounding property owners.

## Issue \#2: General Plan, Zoning, and Land Use

The General Plan and zoning for these two parcels is Downtown Specific Plan. The Downtown Specific Plan designation for the two parcels is Mixed Use, which would allow bars, nightclubs, and public assembly uses of over 30 people with the issuance of a Use Permit.

The surrounding properties are also located within the Downtown Specific Plan and have designations of Mixed Use. The surrounding properties are small commercial uses, primarily beauty salons.

## Issue \#3 Unpermitted Work

Many of the proposed interior and exterior changes shown on the project plans were previously completed without the requisite Planning approvals or building permits. In April 2018, the Code Enforcement Division found that roof, framing, electrical, and other work was being done at the property without building permits; subsequently a Notice of Violation was issued at that time to obtain the proper building permits. Building permits were issued in the following months for structural repairs and a re-roof, to make repairs and corrections to the unpermitted work in the building. Additional building permits for tenant improvements to make the property usable for an event space cannot be issued until after a use permit is approved. In August 2018, the Building and Code Enforcement Divisions found that additional work had been performed without permits, including sheet rocking the interior and tenant improvements, and that the space was set up to host a party with 400-500 chairs, tables, and musical instruments. Code Enforcement then posted the building as sub-standard (red tagged), which prevents anyone from occupying the building. Subsequently, the applicant applied for a use permit and design review to request approval for the exterior changes and the event center. If the request is approved, then the applicant may apply for the necessary building permits to make the exterior changes and tenant improvements and the sub-standard posting can be removed upon the building permits being inspected and finaled.

## Issue \#4: Design Review of Exterior Changes

As discussed above, the applicant made a number of changes to the exterior of the building prior to applying for any entitlements and is proposing more changes that have not yet been constructed. Each design element is discussed in more detail below.

## Paint Colors

The applicant repainted the building from a light brown color to the current blue-gray. Staff believes the colors are consistent with the Rivertown Design Guidelines, which state in 2.4.C that "light colored base walls of buildings and other large expanses are encouraged. Soft tones ranging from white to very light pastels are required." The project plans show the trim as white, which is also consistent with the Design Guidelines. The applicant owns the adjacent 517 West $2^{\text {nd }}$ Street building. The applicant appears to have painted part of the 517 West $2^{\text {nd }}$ Street building, including the eastern elevation facing the adjacent lot, and the rear building wall of 516 West $3^{\text {rd }}$ Street, which he does not own, a slightly different shade of blue. In order to create a cohesive project, staff has included a recommended condition of approval that all buildings must be painted the same shade of blue as 509 West $2^{\text {nd }}$ Street and that the permission of the owner of $516 \mathrm{West} 3^{\text {rd }} \mathrm{St}$. will be obtained prior to commencing work on that building.

## Doors, Windows and Trim

The applicant replaced the existing windows, including the front windows, with residential sliding windows. On the lower front windows, the applicant used smaller windows than were previously installed and filled the remaining gap with a wooden header (see

Attachment B). The use of trim around the windows is not consistent with some windows on the front elevation lacking trim while the remaining building windows have trim. The Rivertown Design Guidelines have specific guidelines in section 2.8.5 for replacement windows, including using the original window openings wherever possible, replacing windows with the same operating type of the original window, and avoiding blocking or filling of the window openings. Based on the Design Guidelines, staff's recommended conditions of approval would require the applicant to install commercial storefront windows that match the size of the original window openings on the front elevation. Additionally, the doors on the building were replaced with residential doors. The project plans show the main entrance will be enlarged and a double, decorative wooden door will be added. Staff has also added recommended conditions of approval that all doors on the front elevation shall be commercial doors and that the secondary door on the front elevation be a commercial and decorative style, such as frosted glass.

## Lighting and Awnings

The applicant has already completed several changes to the front elevation and is proposing additional changes. The applicant already added exterior lights to the second story of the building with metal conduit running along the front elevation. The Design Guidelines in section 2.62 state that "lighting fixtures shall be attractively designed to complement the architecture of the project." The generic, industrial-style lighting at the top of the second story is not architecturally compatible nor does it provide functionality at such a high height.

The applicant is requesting to remove the existing front awning as part of the design review application. Without the awning, the front of the building would lack the architectural details found in other nearby buildings. Furthermore, the Design Guidelines encourage the use of awnings in the Rivertown area. Staff believes that if the current awning is removed, then the awning should be replaced with a new fabric awning in order to meet the intent of the Design Guidelines.

In order to create a façade that visually aligns with the others in Rivertown and maintains the historic character of Rivertown that the Design Guidelines strive for, staff has a number of recommended changes to the façade. Staff has added the following recommended conditions of approval to the attached resolution: require a new canvas awning that is architecturally compatible with the building to be installed if the applicant removes the current awning; to remove the conduit and lights from the second floor exterior; and to add high-quality lights above the main entrance door. Staff believes with these recommended conditions that the building will meet the Design Guidelines and be a high quality addition to the area.

## Roof Deck

The applicant began construction of a 1,000 square foot roof deck without permits. The partially completed roof deck is located at the rear of the building on the roof of the first story. A doorway leads from the second story onto the roof deck. In order to meet Fire Code exiting requirements, an exterior staircase is proposed on the west side of the building. The applicant has shown solid railings around the roof deck and staircase. Staff
has added a recommended condition of approval that the colors of the railing be called out on the building permit submittal. Staff believes that the proposed staircase will be architecturally compatible with the rest of the building.

## Patio

The applicant proposes using the adjacent vacant lot as an outdoor event space for the event center. The applicant installed new exterior lights and conduit on the three walls facing the vacant lot to provide lighting to the event space. Staff believes these lights are not decorative, as the Design Guidelines require, and should be replaced. Staff has added a recommended condition of approval to this effect. The applicant has proposed, and partially constructed, a large gazebo on top of faux-grass. Staff believes that if the gazebo is finished in a professional manner, that it could be an asset to the project. Staff has added a recommended condition of approval that the covering for the gazebo be neutral in color and that full plans for the gazebo be reviewed and approved by the Zoning Administrator prior to the issuance of building permits.

## Landscaping

Currently, the vacant lot has an existing wrought-iron fence and landscaping, including some tropical plants and palm trees. The subject building has small planter boxes in front of it and along the side, adjacent to the vacant property. On the other side of the vacant property, similar planting areas are currently vacant and accentuate the large blank wall. Staff has added a recommended condition of approval that the applicant install droughttolerant landscaping in these empty planter boxes in order to provide a cohesive, and well maintained project site. Staff has also included a recommended condition of approval that the planting areas along 517 West $2^{\text {nd }}$ Street have vines and trellises planted to add visual interest to the blank wall.

With the proposed conditions of approval, staff believes the project would meet the intent of the Rivertown Design Guidelines. The applicant has not proposed any building signage as part of this submittal. If future signage is proposed, the applicant would be required to submit for design review and building permits prior to installation.

## Issue \#5: Variance Request and Alcohol License

As part of the event center, the applicant is proposing that customers renting the event center could supply their own alcohol as part of their event. Antioch Municipal Code §95.203 defines on-sale liquor as "The sale of alcoholic beverages for consumption at the point of sale. This category shall include any facility, inclusive or a portion thereof, which is utilized for special event functions wherein alcoholic beverages are sold or given away on the premises for consumption on the premises." The definition clearly calls out event facilities, even if not selling the alcohol, as subject to the standards for alcohol establishments.

Antioch Municipal Code § 9-5.3831 limits the location of alcohol establishments within a radius of 500 feet from any other alcohol establishment, school, public park, playground, recreational center, day care center, or similar use. The project site is located within 500
feet of the Nick Rodriguez Community Center. In order to allow customers to serve alcohol at an event, the applicant must be granted a variance from the separation requirements.

The subject property is located within the Mixed-Use designation in the Downtown Specific Plan. This designation was created in order to "encourage an ultimate mix of residential, retail, restaurant, public and entertainment uses that serves as a local and regional attraction. The physical form of the Mixed-Use District lends itself to a comfortable and enjoyable pedestrian experience" (Downtown Specific Plan pg. 13). The dense nature of the Rivertown area makes maintaining the 500 foot separations difficult and would conflict with the goal of creating an enjoyable pedestrian experience with restaurant and entertainment uses. Additionally, Policy 1.38 in the Downtown Specific Plan states, "Continue to promote more activities and attractions in Downtown, including more restaurants, entertainment venues, art, cultural, and special events." The proposed event center would provide an additional venue downtown for these types of events to occur. Approving a variance for the separation would help to further the goals of the Specific Plan. Ideally, the Downtown Specific Plan would have addressed this situation from the outset, but staff plans a future update of the Specific Plan to address the separation requirements in the Rivertown areas.

The Nick Rodriguez Community Center is generally used as an adult only facility as Antioch's Senior Center. Most of these events occur during the daytime. The facility is occasionally used for children's programs, which are supervised events. The proposed event center would be used for private events and not open to the general public. Therefore, there would not be overlap between the two facilities usage and clientele.

Given the dense location of the property in the downtown area, the goals to increase activity within the property's Mixed-Use land use designation, the infrequent use of the Nick Rodriguez Community Center for children's events, and the private nature of the proposed use, staff recommends the granting of a variance.

The four findings and their applicability to the variance request for alcohol sales within 500 feet of a community center are as follows:

1. That there are exceptional or extraordinary circumstances or conditions applicable to the property involved, or to the intended use of the property, that do not apply generally to the property or class of use in the same zone or vicinity.

The site is located in the Downtown area, which has small parcels and a dense development pattern. The compact nature of the Downtown prohibits the property from meeting the distance requirements compared to larger parcels in other commercial areas with sparser development.
2. That the granting of such variance will not be materially detrimental to the public health or welfare or injurious to the property or improvements in such zone or vicinity.

The granting of this variance would allow alcohol as an ancillary use to the primary business purpose of hosting private events. The project, as conditioned, would ensure that the use of alcohol at the site does not become detrimental to the public health or welfare.
3. That because of special circumstances applicable to the subject property, including size, shape, topography, location, or surroundings, the strict application of the zoning provisions is found to deprive the subject property of privileges enjoyed by other properties in the vicinity under the identical zone classifications.

The Community Center that is within 500 feet of the site generally serves senior citizens. Infrequently, children attend classes or perform at the community center. The children are supervised by adults while participating in a structured activity. The activity at the subject property would be private events, which would not be open to the general public and infrequently overlap with the Community Center schedule of activities.
4. That the granting of such variance will not adversely affect the comprehensive General Plan.

The granting of the variance will not adversely affect the General Plan because the subject property falls within the Downtown Specific Plan Focus Area. The Downtown Specific Plan has a number of policies encouraging entertainment, special events, and dining opportunities in the Downtown. Granting this variance would further these policies.

## Issue \#6: Noise and Security

The main issues surrounding event center use permit requests are typically impacts to adjacent uses and public safety. Staff has included conditions in the attached resolution requiring all live entertainment, such as amplified music, to be conducted within the building at a volume that is not audible to adjacent properties and that all the windows and doors are to remain closed during the entertainment. Staff has included a recommended condition of approval that the use of all outdoor spaces, whether in the adjacent vacant lot or on the proposed roof deck, cease by $10 \mathrm{p} . \mathrm{m}$. After this time, all activities would need to occur within the building. With proper measures in place, any potential noise and vibration impacts to the surrounding properties should be minimized.

In order to minimize any potential impacts to public safety, staff has included a recommended condition of approval requiring that the applicant contract directly with a security company and have at least two uniformed security guards present during any events. The attached resolution includes a condition to provide a copy of the security contract to the Community Development Department for review and approval prior to issuance of building permits for the event center. The applicant previously installed a
number of security cameras around the building and facing onto the vacant lot that would aid in providing on-going security at the site.

In order to limit the noise to surrounding property owners, staff has included a recommended condition of approval that alcohol may not be served outside, either from a bar or from a member of the wait staff. Guests would be able to bring alcoholic beverages to the outside patio, provided that all $A B C$ requirements are met.

## Issue \#7: Occupancy and Parking

The Building Code maximum occupancy for assembly with non-fixed tables and chairs is 1 occupant per 15 square feet. Based on the project plans, approximately 4,560 square feet of indoor square footage would be devoted to assembly space. Based on the Building Code, 300 people would be allowed to occupy the building at once. While the occupancy of the entire project site, including the adjoining patio, would allow a higher occupancy, after $10 \mathrm{p} . \mathrm{m}$. all of the people on the site would be required to move inside the building. Therefore, a condition requiring the maximum occupancy of the entire site be limited to maximum occupancy of the building is included in the attached resolution. It is important to note that the maximum occupancy of the building could be less depending on other requirements of the Fire Department and the Building Code.

The property does not have any on-site parking. The Downtown Specific Plan does not require on-site parking within the Mixed-Use land use designation. The property is within close proximity to four City owned public parking lots, which would accommodate event center attendees. Based on the off-site public parking lots, there is adequate parking available to serve the use.

## ATTACHMENT "A"

## CITY OF ANTIOCH PLANNING COMMISSION RESOLUTION NO. 2019-**

# RESOLUTION OF THE CITY OF ANTIOCH PLANNING COMMISSION APPROVING A USE PERMIT, VARIANCE, AND DESIGN REVIEW (UP-18-18, V-1901, AR-18-18) FOR AN EVENT CENTER WITH LIVE ENTERTAINMENT, A VARIANCE FROM SEPARATION REQUIREMENTS FOR ON-SALE ALCOHOL, MINOR EXTERIOR ALTERATIONS, AND A BUILDING ADDITION LOCATED AT 509 WEST $2^{\text {ND }}$ STREET AND THE ADJACENT VACANT LOT 

WHEREAS, Prince Nwosu requests approval of use permit for an event center, a Variance from separation requirements between an on-sale alcohol location and a community center, and design review of minor exterior façade changes, an approximately 199 square foot rear building addition, an exterior staircase, a roof deck to the rear of the building, and a gazebo on the adjoining vacant lot (APNs 066-053-009 and 066-053-014).

WHEREAS, this project is Categorically Exempt from the provisions of CEQA, pursuant to section 15301; and,

WHEREAS, the Planning Commission duly gave notice of public hearing as required by law; and,

WHEREAS, the Planning Commission on February 20, 2019, duly held a public hearing and received and considered evidence, both oral and documentary; and,

NOW THEREFORE IT BE RESOLVED that the Planning Commission does hereby make the following findings for approval of a Use Permit:

1. The granting of such Use Permit will not be detrimental to the public health or welfare or injurious to the property or improvements in such zone or vicinity.

The proposed event center with live entertainment will be heavily conditioned. Amplified live entertainment will be permitted within the building only; no live entertainment, amplified or non-amplified, will be permitted outdoors or in parking lot areas. Based upon the conditions imposed, the assembly and entertainment uses will not create adverse impacts to the surrounding businesses and residents.
2. The use applied at the location indicated is properly one for which a Use Permit is authorized.

The site is zoned Downtown Specific Plan with a land use designation of Mixed Use. The Downtown Specific Plan allows public assembly with the approval of a use permit in the Mixed-Use designation.
3. That the site for the proposed use is adequate in size and shape to accommodate such use, and all parking, and other features required.

The proposed event center will take place in an existing commercial building that will be expanded to better serve the use. The site is served by ample city-owned parking lots.
4. That the site abuts streets and highways adequate in width and pavement type to carry the kind of traffic generated by the proposed use.

The project site is currently developed and is located West $2^{\text {nd }}$ Street, which is adequate in width and pavement type to carry the traffic generated by the proposed use.
5. The granting of such Use Permit will not adversely affect the comprehensive General Plan.

The use will not adversely affect the comprehensive General Plan because the project is consistent with the General Plan designation for the site of Downtown Specific Plan.

NOW THEREFORE IT BE RESOLVED that the Planning Commission does hereby make the following findings for approval of a Variance:

1. That there are exceptional or extraordinary circumstances or conditions applicable to the property involved, or to the intended use of the property, that do not apply generally to the property or class of use in the same zone or vicinity.

The site is located in the Downtown area, which has small parcels and a dense development pattern. The compact nature of the Downtown prohibits the property from meeting the distance requirements compared to larger parcels in other commercial areas with sparser development.
2. That the granting of such variance will not be materially detrimental to the public health or welfare or injurious to the property or improvements in such zone or vicinity.

The granting of this variance would allow alcohol as an ancillary use to the primary business purpose of hosting private events. The project, as conditioned, would ensure that the use of alcohol at the site does not become detrimental to the public health or welfare.
3. That because of special circumstances applicable to the subject property, including size, shape, topography, location, or surroundings, the strict
application of the zoning provisions is found to deprive the subject property of privileges enjoyed by other properties in the vicinity under the identical zone classifications.

The Community Center that is within 500 feet of the site generally serves senior citizens. Infrequently, children attend classes or perform at the community center. The children are supervised by adults while participating in a structured activity. The activity at the subject property would be private events, which would not be open to the general public and infrequently overlap with the Community Center schedule of activities.
4. That the granting of such variance will not adversely affect the comprehensive General Plan.

The granting of the variance will not adversely affect the General Plan because the subject property falls within the Downtown Specific Plan Focus Area. The Downtown Specific Plan has a number of policies encouraging entertainment, special events, and dining opportunities in the Downtown. Granting this variance would further these policies.

NOW THEREFORE BE IT RESOLVED that the Planning Commission of the City of Antioch does hereby APPROVE the use permit for an event center, a Variance from separation requirements between an on-sale alcohol location and a community center, and design review of minor exterior façade changes, an approximately 199 square foot rear building addition, an exterior staircase, a roof deck to the rear of the building, and a gazebo on the adjoining vacant lot, located at 509 West $2^{\text {nd }}$ Street and the neighboring lot (APNs 066-053-009 and 066-053-014) subject to the following conditions:

## A. GENERAL CONDITIONS

1. The project shall comply with the Antioch Municipal Code. All construction shall conform to the requirements of the California Building Code and City of Antioch standards.
2. The applicant shall defend, indemnify, and hold harmless the City in any action brought by a third party to challenge the land use entitlement. In addition, if there is any referendum or other election action to contest or overturn these approvals, the applicant shall either withdraw the application or pay all City costs for such an election.
3. The project shall be implemented as indicated on the application form and accompanying materials provided to the City and in compliance with the Antioch Municipal Code, or as amended by the Planning Commission.
4. No building permit will be issued unless the plan conforms to the project description and materials as approved by the Planning Commission and the standards of the City.
5. This approval expires two years from the date of approval (expires February 20, 2021), unless an extension has been approved by the Zoning Administrator. Requests for extensions must be received in writing with the appropriate fees prior to the expiration of this approval. No more than one one-year extension shall be granted.
6. No permits or approvals, whether discretionary or mandatory, shall be considered if the applicant is not current on fees, reimbursement payments, and any other payments that are due.
7. City staff shall inspect the site for compliance with conditions of approval prior to final inspection approval.
8. The applicant shall obtain an encroachment permit for all work to be done within the public right-of-way.

## B. CONSTRUCTION CONDITIONS

1. The use of construction equipment shall comply with AMC §5-17.04 and 5-17.05, or as approved in writing by the City Manager.
2. The project shall be in compliance with and supply all the necessary documentation for AMC § 6-3.2: Construction and Demolition Debris Recycling.
3. Building permits shall be secured for all proposed construction associated with this facility, including any interior improvements not expressly evident on the plans submitted.
4. Standard dust control methods shall be used to stabilize the dust generated by construction activities.

## C. AGENCY REQUIREMENTS

1. All requirements of the Contra Costa County Fire Protection District shall be met, including:
a. The developer shall provide emergency apparatus access roadways with all-weather (paved) driving surfaces of not less than 20 -feet unobstructed width, and not less than 13 feet 6 inches of vertical clearance, to within 150 feet of travel distance to all portions of the exterior walls of every building. Access shall have minimum outside turning radius of 45 feet and must be
capable of supporting the imposed fire apparatus loading of 37 tons. Access roadways shall not exceed $20 \%$ grade. Grades exceeding 16\% shall be constructed of grooved concrete per the Fire District Standard. (503) CFC
b. Access roadways of less than 28 -feet unobstructed width shall have signs posted or curbs painted red with the words NO PARKING - FIRE LANE clearly marked. (22500.1) CVC, (503.3) CFC

Access roadways of 28 feet or greater, but less than 36-feet unobstructed width shall have NO PARKING - FIRE LANE signs posted, allowing for parking on one side only or curbs painted red with words NO PARKING FIRE LANE clearly marked. Parking is permitted only on the side of the road that does not have hydrants. (22500.1) CVC, (503.3) CFC
c. The developer shall provide an adequate and reliable water supply for fire protection with a minimum flow of 1500 GPM. Required flow must be delivered from not more than 1 hydrant flowing for a duration of 120 minutes while maintaining 20-pounds residual pressure in the main. (507.1), (B105) CFC
d. The developer shall submit a minimum of two copies of full size, scaled site improvement plans indicated all existing or proposed hydrant locations, fire apparatus access, elevations of building, size of building and type of construction for review and approval prior to obtaining a building permit. Final placement of hydrants shall be determined by the Fire District. (501.3) CFC
e. The developer shall provide a minimum of two complete sets of Tenant Improvement plans and specifications of the subject project, including plans for any of the following required deferred submittals, to the Fire District for review and approval prior to construction to ensure compliance with minimum requirements related to fire and life safety. Plan review and inspection fees shall be submitted at the time of plan review submittal. (105.4.1) CFC, (901.2) CFC, (107) CBC

- Private underground fire service water mains
- Fire sprinklers
- Fire alarm
- Commercial kitchen hood extinguishing systems
- Provide safety during construction (Ch. 33) CFC

2. All requirements of the Contra Costa Environmental Health Division (CCEHD) shall be met, including the following, as applicable:
a. As there is a kitchen onsite, a health permit is required if it is to be used as retail food facilities. Food facilitates include restaurants, stores, bars,
cafeterias, snack bars, kiosks at transit sites, and any business or operation that sells or gives food away to the public (including employees or students).
b. Plans must be submitted to CCEH and approved prior to the issuance of building permits for such facilities. Prior to the submission of plans, CCEH staff is available to meet with prospective developers/operators to discuss the requirements for these facilities and the plan review process.
c. Dumpster areas serving retail food facilities are required to have a drain to the sanitary sewer and provided with a hot/cold water supply.
d. All retail food facilities must have approved restrooms.
e. Hazardous construction and demolition materials should be separated from those that can be recycled or disposed.
f. Debris from construction or demolition or demolition activity must go to a solid waste or recycling facility that complies with the applicable requirements and can lawfully accept the material (e.g., solid waste permit, EA Notification, etc.). The debris must be transported by a hauler that can lawfully transport the material. Debris bins or boxes of one cubic yard or more owned by the collection service operator shall be identified with the name and telephone number of the agent servicing the container.
g. Non-source-separated waste materials must not be brought back to the contractor's yard unless the facility has the appropriate solid waste permit or EA Notification.

## D. FEES

1. The applicant shall pay all City fees which have been established by the City Council and as required by the Antioch Municipal Code.
2. The applicant shall pay all required fees at the time of building permit issuance.

## E. PROPERTY MAINTENANCE

1. No illegal signs, pennants, banners, balloons, flags, or streamers shall be used on this site at any time.
2. The site shall be kept clean of all debris (boxes, junk, garbage, etc.) at all times.

## F. PROJECT-SPECIFIC REQUIREMENTS

1. Attendance at the event center, including all outdoor spaces, shall be limited to the maximum occupancy of the building's occupancy. At no time shall the occupancy limit of the building be exceeded anywhere on either parcel.
2. The hours of operation shall be limited to between 10 a.m. and midnight.
3. The use of all outdoor spaces, whether in the adjacent vacant lot or on the proposed roof deck, shall cease at 10:00 p.m.
4. No amplified music or speakers shall be allowed in the outdoor spaces.
5. Non-amplified music and all other noise from the outdoor spaces shall be kept within the 80 decibel limit and at the property line cannot exceed 75 decibels.
6. Music and all other noise from inside the building shall be kept within the 80 decibel limit and at the property line cannot exceed 75 decibels.
7. Doors and windows of the building shall remain closed but unlocked during events to minimize noise impacts.
8. All activities shall be conducted entirely inside the building and fenced lot. Loitering shall be prohibited.
9. That no less than two uniformed security guards who are employed by a Private Patrol Operator (Security Company) who is currently licensed with the California Department of Consumer Affairs shall be provided between 4 p.m. and 1 a.m. for any events beginning after 5 p.m. A copy of the contract with the Security Company shall be provided to the Community Development Director for review and approval prior to issuance of building permits and commencement of the event center. Should there be a change in the security private patrol operator or in the liability insurance of the applicant, the Community Development Director shall be notified within 5 business days.
10. The name of the Security Company, proof of liability insurance including a copy of all exceptions, their State license number, and the guard registration numbers for the employed guards shall be provided to the Community Development Department. Should there be a change in the security private patrol operator or in the liability insurance of the applicant, the Community Development Director shall be notified within 5 business days.
11. The applicant shall be subject to a Planning Commission hearing, per Section 95.2707.1 of the City of Antioch Municipal Code, if the Antioch Police Department must respond to this property as a result of complaints received due to incidents
related to public assembly and live entertainment or any other police response issues related to the operation of public assembly and live entertainment at 1820 A Street. If the Planning Commission determines that the conditions of approval are not met or the use has become a public nuisance or otherwise a threat to public health, safety, or welfare, it can result in revocation of the use permit or imposition of a fine.
12. If the Antioch Police Department must respond to this property as a result of incidents related to the public assembly or live entertainment and they determine that the conditions of approval are not met or the use has become a public nuisance or otherwise a threat to public health, safety, or welfare they may immediately shut down the event and/or impose a fine.
13. No "Adult Entertainment" (as defined in Antioch Municipal Code section 9-5.203) shall be permitted on site. This is to include, but not limited to, "go-go" dancers, exotic dancers, strippers, lingerie shows, etc.
14. If an event has alcohol, then no alcohol shall be served outside either from a standalone bar or from a member of the wait staff. Guests shall not be prohibited from consuming alcohol outside, provided that all $A B C$ requirements are met.
15. Trash enclosures shall drain to sanitary sewer and shall incorporate methods to contain runoff at the front-gate and pedestrian access point to prevent storm water from entering the enclosure.
16. Any future signage shall require review and approval through Administrative Design Review prior to installation.
17. Detailed drought-tolerant landscaping and irrigation plans for the planter boxes along the front and west side of the building shall be submitted to the City for review and approval. All landscaping and irrigation shall be installed in accordance with approved plans prior to the issuance of certificates of occupancy for this building.
18. The planter boxes next to the eastern wall of 516 West $3^{\text {rd }}$ Street shall include trellis with vines along with complementary landscaping to the other planting areas on the site. Detailed landscaping and irrigation plans shall be submitted to the City for review and approval. All landscaping and irrigation shall be installed in accordance with approved plans prior to the issuance of certificates of occupancy for this building.
19. All artificial greenery shall be removed.
20. All planting areas shall be kept free of weeds and litter, watered, pruned, and otherwise maintained as necessary. Plant material shall be replaced as needed to maintain the landscaping.
21. The applicant shall install commercial storefront windows on the front elevation. The windows shall fit the size of the original opening.
22. Any window covering used shall be attractive when viewed from the exterior of the building and shall not be blackout curtains.
23. 517 West $2^{\text {nd }}$ Street and the rear elevation of 516 West $3^{\text {rd }}$ Street shall be painted the same shade of blue as 509 West $2^{\text {nd }}$ Street. The applicant shall obtain approval of the owner of 516 West $3^{\text {rd }}$ prior to beginning any work on that building.
24. All windows shall be outfitted with trim and painted Sherwin Williams Greek Villa SW7551.
25. All building trim and details shown on the plans as painted white shall be painted Sherwin Williams Greek Villa SW7551.
26. All doors used on the front elevation shall be commercial doors.
27. The secondary door on the front elevation shall be replaced with a commercial, decorative door, such as a frosted glass door. The door's design shall be reviewed and approved by the Zoning Administrator prior to the issuance of building permits.
28. The lights and the conduits on the second story of the front elevation shall be removed.
29. New decorative lights that are appropriate to the period and style of the building shall be added above the main entrance doorway. The lights shall be reviewed and approved by the Zoning Administrator prior to the issuance of building permits.
30. The building shall be patched, repaired, and painted in a professional and architecturally compatible manner.
31. Conduit, downspouts, and other appurtenances shall be painted to match the building color and trim, as necessary, in order to disguise their appearance.
32. If the current awning is removed from the front elevation, then a new canvas awning shall be installed that is architecturally compatible with the building's architecture. The color, material, and design of the awning shall be reviewed and approved by the Zoning Administrator prior to building permit issuance.
33. The colors of the railings of the external staircase and roof deck shall be called out on the building permit submittal and be the same as other colors used on the building.
34. The gazebo shall be covered in a neutral color that complements the building. The full plans for the gazebo shall be reviewed and approved by the Zoning Administrator prior to building permit issuance.
35. The lights that were installed on the three walls facing the vacant lot shall be replaced with decorative lights appropriate to the period and architectural style of the building. The lights' design shall be reviewed and approved by the Zoning Administrator prior to the issuance of building permits. Owner approval is required prior to beginning any work on the rear wall of 516 West $3^{\text {rd }}$ Street.
36. The new trash enclosure shall meet the requirements of Antioch Municipal Code § 9-5.1401 Refuse Storage Area Design Guidelines and shall be located on the eastern side of 509 West $2^{\text {nd }}$ St. The following design requirements shall be met:

- The walls of the trash enclosure structure shall be constructed of solid masonry material with a decorative exterior surface finish compatible to the main structure(s). A split face concrete block finish is recommended.
- The trash enclosure structure shall have solid heavy gauge metal gates.
- The trash enclosure walls shall be a minimum six feet in height. The minimum dimensions for the trash enclosure shall be adequate for the size and number of dumpster units and recycling bins.
- $\quad$ Signage identifying the types of recyclable materials accepted for collection at the trash enclosure shall be conspicuously posted within the enclosure.
- If visible from public view, the perimeter of the trash enclosure structure shall be planted with landscaping, including a combination of shrubs and/or climbing evergreen vines.
- $\quad$ The roof design shall be compatible with the buildings served.

37. No outdoor storage of equipment, chairs, tables, catering items, or rubbish shall be allowed at either parcel. All materials used outdoors during an event shall be moved inside immediately following the event.
38. All ingress and egress requirements of the California Building Code shall be addressed through the building permit process.
39. Loading and unloading of deliveries and equipment may occur along the eastern side of 509 West $2^{\text {nd }}$ Street.
40. Any gates used to secure the eastern side yard shall not swing over the property line into the public right-of-way and shall meet all Building and Fire Code requirements for exiting. Planning staff shall review and approve the design and location of the gate prior to building permit issuance.
41. The vacant lot may not be used for either loading or unloading of deliveries.
42. The applicant shall replace the empty lot's gates with pedestrian access gates that match the rest of the fence.

I HEREBY CERTIFY the foregoing resolution was duly adopted by the Planning Commission of the City of Antioch, County of Contra Costa, State of California, at a regular meeting of said Planning Commission held on the 20th day of February, 2019, by the following vote:

## STAFF REPORT TO THE PLANNING COMIMISSION FOR CONSIDERATION AT THE MEETING OF FEBRUARY 20, 2019

PREPARED BY: Kevin Valente, Contract Planner
Raney Planning \& Management, Inc.
APPROVED BY: Alexis Morris, Planning Manager
DATE: February 15, 2019
SUBJECT: Vineyards at Sand Creek Amenity Building and Landscaping Design Review

## RECOMMENDATION

Staff recommends that the Planning Commission APPROVE AR-18-23 subject to the conditions contained in the attached resolution.

## REQUEST

Century Communities requests design review approval of an Amenity Building and landscaping for Phase I through Phase III as well as streetscape landscaping for Heidorn Ranch Road and Hillcrest Avenue for the Vineyards at Sand Creek Project (APNs 057-030003 and 057-050-007).

## PROJECT LOCATION

The project site is a portion of the overall 150-acre project area located at 3052 Heidorn Ranch Road in the City of Antioch. The project site is bounded by a residential subdivision to the north, the future extension of Sand Creek to the south, Heidorn Ranch Road and City of Brentwood City limits to the east, and future Hillcrest Avenue extension and vacant residential land to the west (see Attachment B).

## BACKGROUND

On February 9, 2016, the City of Antioch certified the Vineyards at Sand Creek Environmental Impact Report (EIR). In addition, the Council introduced an ordinance approving a Development Agreement (DA) between the City and the applicant and an ordinance rezoning the site to Planned Development District (PD). As part of the PD, development standards and design guidelines were adopted. The second reading for the DA and PD was on February 23, 2016.

The approved project consisted of a residential development on 141.6 total acres, including up to 650 single-family residential units and 31.6 acres of parks and landscaped areas. In addition, the proposed project included off-site improvements (i.e., roadways and utilities) that would affect two off-site adjacent areas totaling approximately 6.47 acres: an area to the north and east that included an approximately 6.02-acre portion of Heidorn Ranch Road (a dedicated public roadway in Antioch); and a 0.4-acre area to the southeast that includes a portion of Sand Creek in which storm drain lines and a storm drain outfall structure would be constructed.

On May 24, 2018, the City of Antioch's Zoning Administrator adopted the resolution approving a Use Permit for Phase I through Phase III for the Vineyards at Sand Creek Project, subject to conditions of approval. The overall project consists of six total phases.

On October 3, 2018, the City of Antioch's Planning Commission adopted the resolution approving design review of the home architecture for Phase I through Phase III for the Vineyards at Sand Creek Project, subject to conditions of approval.

On October 18, 2018, the City of Antioch's Parks and Recreation Commission adopted the resolution approving the designs of Parcel "C" and Parcel "D" Parks for Phase I through Phase III for the Vineyards at Sand Creek Project.

## ENVIRONMENTAL REVIEW

In accordance with CEQA, an EIR was prepared for the Vineyards at Sand Creek Project in December 2015 (SCH 2014092010). The EIR provides an evaluation of the potential environmental impacts of the proposed project and recommends mitigation measures to reduce impacts to a less-than-significant level. With the implementation of the mitigation measures proposed, the Vineyards at Sand Creek Project would not result in any significant unavoidable impacts with respect to any of CEQA issue areas. Additionally, the proposed project, when combined with cumulative projects in the vicinity of the site, would not result in any cumulatively considerable significant unavoidable impacts. The Antioch City Council certified the EIR and adopted the associated Mitigation Monitoring Reporting Program (MMRP) on February 9, 2016.

Copies of the Vineyards at Sand Creek Project EIR are available for review Monday through Friday, at the Community Development Department, between the hours of 8:00 a.m. and 5:00 p.m. The EIR is also available online at:

## http://ci.antioch.ca.us/CityGov/CommDev/PlanningDivision/Environmental-docs.htm.

The proposed Design Review is consistent with the project analyzed in the EIR; therefore, no further environmental review is required.

## ANALYSIS

## Issue \#1: Project Overview

The applicant is requesting Design Review of a 7,390-square foot amenity building (social clubhouse), entry structure, restroom building, landscaping for Phases I-III for the Vineyards at Sand Creek Project, and streetscape landscaping for Heidorn Ranch Road and Hillcrest Avenue. It should be noted that all project landscaping, including interior streetscapes, front yards, and the amenity building will be maintained by the project's Home Owners Association.

## Issue \#2: Amenity Building

The applicant is requesting design review of a 7,390-square foot Amenity Building (social clubhouse), with an outdoor swimming pool, pool house, outdoor social space including Bocce Ball and Pickle Ball courts, lawn area, and 43 parking spaces, which would be located within the centrally located park parcel. The Amenity Building site also includes a 567-square foot restroom building and entry structure. The social clubhouse is designed to include social areas such as a Pub, casual seating areas, a catering/demonstration kitchen with a large gathering area, a fitness gym, a movement studio, as well as a reception area and mailroom. The building design theme includes a farmhouse architectural style known as Napa Farmhouse consisting of a brick veneer and board and batten exterior with darkframe gridded windows and composition shingle roofing with metal seam roofing accents. The Amenity Building also includes metal awnings and farmhouse-style gooseneck exterior light fixtures (see Attachment C).

The proposed Amenity Building is consistent with the City of Antioch's Citywide Design Guidelines for Residential Development. The Community Facilities and Open Space Section (Section 6.1.8) identifies neighborhood spaces and pedestrian features as important places for residents to gather, socialize, and play. Community facilities and open spaces must be safe and secure and provide spaces for small intimate meetings or larger community gatherings. The proposed social clubhouse would provide spaces/amenities that would be centrally located and serve a variety of functions as required by the City's Design Guidelines. In addition, the proposed Amenity Building would be centrally located within the overall Sand Creek Project and serve as a primary feature of the project site, accommodating a variety of sitting areas, gathering areas, and active recreational areas, which would be easily accessible from all residential units.

## Issue \#3: Landscaping

As described above, on October 3, 2018, the Planning Commission approved the design review for the residential units of Phase I through Phase III for the Vineyards at Sand Creek Project. The applicant is now requesting design review of the landscaping for the residential lots of Phase I through Phase III for the Vineyards at Sand Creek Project (see Attachment D).

Five architectural design themes were approved for the residential units consisting of California Ranch, Artisan, Cottage, Farmhouse, and Spanish Eclectic. Each approved architectural theme has a unique landscape theme proposed consisting of specific plant and tree species, which is consistent with the City of Antioch's Citywide Design Guidelines for Residential Development. The Landscaping Section (Section 6.1.5) requires that individual lot landscaping be compatible with the architectural style, size, and massing of the individual home creating a diverse landscape street scene. Consistent with Section 6.1.5, the proposed residential landscaping would also define entrances to neighborhoods and homes, and provide a variety of height, textures, and colors in the landscape palette, by incorporating a combination of trees, shrubs, and ground cover. All proposed plant and tree species are identified as having low to moderate water use. However, the Residential Design Guidelines does require large specimen trees (48-inch box) to be strategically placed to assist new development in looking "established" as quickly as possible. The proposed landscape plans identify a minimum of 24 -inch box size for the proposed residential trees. Therefore, staff has included Draft Condition of Approval B. 6 requiring that a portion of the street trees shall be a 48-inch box size.

## Issue \#4: Streetscape Landscaping

The applicant is requesting design review for the streetscape landscaping of Heidorn Ranch Road (see Attachment E) and Hillcrest Avenue (see Attachment F), as well as both entries and the interior streetscape for the project (see Attachment G).

Consistent with the General Streetscape Guidelines of Chapter 8 of the City of Antioch's Design Guidelines, the proposed streetscape landscaping incorporates a combination of trees, shrubs, and ground cover. All proposed tree and shrub species consist of moderate to very low water use plants. In addition, the proposed streetscape landscaping would establish a clear sense of arrival, through a distinct change in landscape and special entrance features as required by the City's Design Guidelines. To be consistent with the City's Streetscape Design Guidelines, staff is recommending a mix of species (a minimum of two) for each street block for better long-term management, be included. Therefore, staff has included Draft Condition of Approval B. 7 requiring a minimum of two street tree species for each street block. It should also be noted that consistent with the City's Streetscape Design Guidelines, the proposed streetscape design also incorporates the use of medians.

## PLANNING COMMISSION

RESOLUTION NO. 2019-**

## RESOLUTION OF THE CITY OF ANTIOCH PLANNING COMMISSION APPROVING THE DESIGN REVIEW OF AN AMENITY BUIDING AND LANDSCAPING FOR PHASES I-III OF THE VINEYARDS AT SAND CREEK PROJECT

WHEREAS, the City received an application from Century Communities for Design review approval of an amenity building, landscaping for Phases I-III, and streetscape landscaping for Heidorn Ranch Road and Hillcrest Avenue for the Vineyards at Sand Creek Project. The project is located in the southeastern portion of the City of Antioch in eastern Contra Costa County, California (APNs 057-030-003 and 057-050-007); and,

WHEREAS, an Environmental Impact Report for the Vineyards at Sand Creek Project and Mitigation Monitoring and Reporting Program (MMRP) was prepared in accordance with the California Environmental Quality Act (CEQA) Guidelines Section 15162, and was certified, with Findings of Fact, by the City Council on February 9, 2016; and,

WHEREAS, the City Council adopted a General Plan Amendment for the project site from Business Park, Public/Quasi-Public, and Open Space/Senior Housing designations to Medium Low Density Residential and Open Space as well as amendment to the text of the Sand Creek Focus Area of the General Plan (GP-14-01) on February 9, 2016; and,

WHEREAS, the City Council adopted the Vesting Tentative Map/Final Development Plan consisting of 641 units (Subdivision 9390) and Resource Management Plan on February 9, 2016; and,

WHEREAS, the City Council adopted a Rezone of the project site to Planned Development District, approving a Master Development Plan, Final Development Plan, and Planned Development and Design Standards (PD-14-03) on February 23, 2016; and,

WHEREAS, the City Council adopted a Development Agreement between the City of Antioch and GBN Partners, LLC on February 23, 2016; and,

WHEREAS, the adopted Development Agreement between the City of Antioch and GBN Partners, LLC was recorded by the Contra Costa County Recorder's Office on December 13, 2016; and,

WHEREAS, on May 24, 2018, the Zoning Administrator approved a Use Permit for Phase I through Phase III of the Vineyards at Sand Creek Project, consisting of 337 total single-family residential units (96 Market-Rate Single-Family homes for families and 241 Active Adult Single-Family homes for seniors) located in the southeastern portion of the

February 20, 2019
Page 2
City of Antioch in eastern Contra Costa County, California. (APNs 057-030-003 and 057-050-007); and,

WHEREAS, on October 3, 2018, the Planning Commission approved the design review for Phase I through Phase III of the Vineyards at Sand Creek Project, located in the southeastern portion of the City of Antioch in eastern Contra Costa County, California. (APNs 057-030-003 and 057-050-007); and,

WHEREAS, on October 18, 2018, the Parks and Recreation Commission approved the designs of Parcel "C" and Parcel "D" Parks for Phase I through Phase III of the Vineyards at Sand Creek Project, located in the southeastern portion of the City of Antioch in eastern Contra Costa County, California (APNs 057-030-003 and 057-050-007); and,

WHEREAS, the Planning Commission on February 20, 2019, duly held a hearing, received and considered evidence, both oral and documentary.

NOW THEREFORE BE IT RESOLVED that the Planning Commission of the City of Antioch does hereby APPROVE the Design Review of the amenity building, streetscape landscaping for Heidorn Ranch Road and Hillcrest Avenue, and landscaping for Phases IIII of the Vineyards at Sand Creek Project, on APNs 057-030-003 and 057-050-007 subject to the following conditions:

## A. GENERAL CONDITIONS

1. The applicant shall defend, indemnify, and hold harmless the City in any action brought by a third party to challenge the land use entitlement. In addition, if there is any referendum or other election action to contest or overturn these approvals, the applicant shall either withdraw the application or pay all City costs for such an election.
2. The project shall be implemented as indicated on the application form and accompanying materials provided to the City and in compliance with the Antioch Municipal Code, or as amended by the Planning Commission.
3. No building permit will be issued unless the plan conforms to the plans as approved by the Planning Commission and the standards of the City.
4. This approval expires two years from the date of approval (expires February 20, 2021), unless a building permit has been issued and construction has diligently commenced thereon and has not expired, or an extension has been approved by the Zoning Administrator. Requests for extensions must be received in writing with the appropriate fees prior to the expiration of this approval. No more than one oneyear extension shall be granted.

February 20, 2019
Page 3
5. No permits or approvals, whether discretionary or mandatory, shall be considered if the applicant is not current on fees, reimbursement payments, and any other payments that are due.
6. No signs shall be installed on this site without prior City approval.
B. PROJECT SPECIFIC CONDITIONS

1. This development shall comply with all the obligations and requirements included in the adopted Development Agreement between the City of Antioch and GBN Partners, LLC, which was recorded by the Contra Costa County Recorder's Office on December 13, 2016.
2. This development shall comply with all previous project conditions of approval and mitigation measures adopted for the Vineyards at Sand Creek Project, including those found in the following adopted City Council and Planning Commission resolutions:

- City Council Resolution certifying the Environmental Impact Report for the Vineyards at Sand Creek Project, adopting findings of fact and a mitigation monitoring and reporting program (Resolution 2016-11);
- City Council Resolution approving a General Plan Amendment to designate the project site Medium Low Density Residential and Open Space and amending the Sand Creek Focus Area text (Resolution 2016-12); and
- City Council Resolution approving a Vesting Tentative Map/Final Development Plan, and Resource Management Plan for the Vineyards at Sand Creek Project (Resolution 2016-13).
- Planning Commission Resolution approving Design Review of Villages I-III for the Vineyards at Sand Creek Project (Resolution 2018-27).

3. This design review approval applies to the development of the Amenity Buildings for the Vineyards at Sand Creek Project and shall be consistent with the plans dated December 12, 2018.
4. This design review approval applies to the development of the landscaping for Phases I-III for the Vineyards at Sand Creek Project and shall be consistent with the plans dated July 2018.

RESOLUTION NO. 2019-**
February 20, 2019
Page 4
5. This design review approval applies to the development of the streetscape landscaping for Heidorn Ranch Road (plans dated May 2, 2018), Hillcrest Avenue (plans dated June 29, 2018), and the Heidorn Ranch Road entry and Hillcrest Avenue entry (plans dated November 2018) for the Vineyards at Sand Creek Project.
6. A portion of the residential street trees shall be at a minimum 48-inch box size, consistent with the City of Antioch's Residential Design Guidelines, subject to review and approval by the Community Development Director.
7. The streetscape landscaping shall include a minimum of two street tree species for each street block, consistent with the City of Antioch's Streetscape Design Guidelines, subject to review and approval by the Community Development Director.

I HEREBY CERTIFY that the foregoing resolution was passed and adopted by the Planning Commission of the City of Antioch at a regular meeting thereof held on the $20^{\text {th }}$ day of February, 2019.
