

CITY OF  
**ANTIOCH**  
CALIFORNIA

**STAFF REPORT TO THE ANTIOCH PLANNING COMMISSION**

**DATE:** Regular Meeting of May 21, 2025

**PREPARED BY:** Lori Medeiros, Administrative Analyst II 

**APPROVED BY:** Scott Buenting, Public Works Director/City Engineer 

**SUBJECT:** **Determination of the 2025-2030 Capital Improvement Program Consistency with the Antioch General Plan, P.W. 150-25**

---

**RECOMMENDED ACTION**

It is recommended that the Planning Commission determine that the 2025-2030 Capital Improvement Program is consistent with the Antioch General Plan including a determination that any acquisition or disposition of property identified in the project description for each project in the Capital Improvement Program is consistent with the General Plan.

**DISCUSSION**

The attached Capital Improvement Program (CIP) outlines the 2025-2030 expenditure and revenue projections provided for planning purposes only. Any California Environmental Quality Act (CEQA) requirements will be determined on a project-by-project basis prior to final approval and construction of each project. As required by Section 65401 and 65402 of the California Government Code, the Planning Commission is asked to determine whether the projects included in the 2025-2030 five-year CIP are consistent with the current Antioch General Plan.

The General Plan may be viewed at the following website: <https://www.antiochca.gov/community-development-department/planning-division/general-plan/>.

Staff believes the 2025-2030 five-year CIP is consistent with the following General Plan Sections:

CIP CATEGORY	GENERAL PLAN SECTION
Community Facilities	Community Facilities Objective (page 8-2)
Parks and Trails	Parks and Recreation Objective (page 8-8)
Roadway Improvements	Circulation (page 7-1 to page 7-6)
Traffic Signals	Vehicular Circulation Objective (page 7-8)
Wastewater & Storm Drain System	Wastewater Management Objective (page 8-3 to page 8-6)
Water System	Water Facilities Objective (page 8-3)

**RESOLUTION NO. 2025/\*\***

**RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF ANTIOCH  
RECOMMENDING ADOPTION OF FINDING THAT THE PROPOSED  
2025-2030 CAPITAL IMPROVEMENT PROGRAM  
IS CONSISTENT WITH THE ADOPTED GENERAL PLAN OF THE CITY OF ANTIOCH  
AS REQUIRED BY SECTIONS 65401 AND 65402 OF THE GOVERNMENT CODE**

**WHEREAS**, Section 65401 of the Government Code requires the Planning Commission of cities and counties to review any proposed Capital Improvement Program (CIP) in its jurisdiction for conformance with the agency's adopted General Plan and Specific Plans;

**WHEREAS**, Section 65402 of the Government Code requires the Planning Commission of cities and counties to review any proposed acquisition or disposition of real property for conformity with the agency's adopted General Plan;

**WHEREAS**, the projects proposed reflect the major need for roadways, public utilities, and other community facilities during the next five years in concert with anticipated growth areas as noted in the adopted General Plan and Specific Plans; and

**WHEREAS**, pursuant to 14 CFR section 15378, a project under the California Environmental Quality Act (CEQA) does not include government fiscal activities like the budget and Capital Improvements Program, as each project in the Capital Improvements Program will be reviewed for compliance with CEQA before the project is undertaken and a determination made whether the project is not a project under CEQA.

**NOW, THEREFORE BE IT RESOLVED**, that the Planning Commission of the City of Antioch finds that:

1. The proposed 2025-2030 Capital Improvement Program (CIP) is consistent with the adopted General Plan; and
2. Any acquisition or disposition of real property required to effectuate the CIP and has been described in the CIP is consistent with the adopted General Plan.

## SECTION III: PROJECT DETAILS

# Capital Improvement Program Overview

## Program Objective

The primary objectives of the City of Antioch's Capital Improvement Program (CIP) are:

- To provide professional and technical engineering services and support to all City Departments related to facility expansions and improvements, infrastructure rehabilitation and development.
- To provide leadership in implementing Federal, State and Local programs.

The CIP relates the City's annual capital expenditures to a long-range plan for public improvements. California Government Code Section 66002 requires local agencies that have developed a fee program to provide the approximate location, size and timing of projects, in addition to an estimate for the cost of all facilities or improvements to be financed by fees. This is frequently done by the adoption of a CIP and is the process Antioch uses to meet this requirement.

The Capital Improvement Budget document is different from the Operating Budget document, but the two budgets are closely linked. The Capital Improvement Budget, as distinguished from the Operating Budget, is used as a planning tool by the City to identify specific Capital Improvement needs consistent with the financing and timing of those needs in a way that assures the most responsible and efficient use of resources.

Projects within the CIP are allocated over five years using both existing and projected revenue sources. The Capital Improvement staff:

- In consultation with other departments, determines upcoming capital needs.
- Prepares construction documents, including plans, specifications, bid documents and estimates for the needed projects or prepares procurement documents, as needed.
- Provides project management and construction oversight.

The CIP is a five-year plan to guide the construction or acquisition of capital improvements and includes the capital budget for the next two fiscal years, which is authorization from the City Council to expend dedicated revenues for specified projects. Prior to adoption by the City Council each year, the CIP is reviewed by the City's Planning Commission to assure its consistency with the City's current General Plan.

The five-year CIP is reviewed annually to enable the City Council to reassess projects in the program. **Project expenditures for outlying years beyond fiscal year 2027 are provided in the CIP for planning purposes only and do not reflect a Council commitment of funds.**

Capital Improvements Division Personnel:

Scott Buenting	Public Works Director/City Engineer

Anna Davis	Administrative Assistant II

### Capital Improvement Program Process

The CIP is developed as a coordinated effort between the Capital Improvement staff and the Director of Finance.

The annual CIP process begins with a memo and a CIP Project Request form sent out to all City departments requesting proposals for capital projects. New CIP project requests are evaluated and prioritized based on goals and objectives of the City Council, as well as available funding, project need, and the impacts on the operating budget. Some projects have specified funding sources, such as assessment districts, Federal and State grants, or special fees.

The Draft CIP is prepared by Capital Improvement staff and reviewed by the Finance Department before being circulated and approved by the Planning Commission and presented to the Parks & Recreation Commission and the City Council as part of the annual review. The Final CIP budget is presented to the City Council in June and is adopted concurrently with the annual operating budget.

## Capital Improvement Program Categories

### Community Facilities

This category includes new and renovated public buildings, as well as the Marina. The majority of the projects in this category are located in the City's former redevelopment areas.

### Parks & Trails

This category includes improvements and renovations for local and community parks, open space, and trails in the City.

### Roadway Improvements

This category includes new streets, street widening, street rehabilitation, surface treatments, sidewalk repair program, and the City's Pavement Management System.

### Traffic Signals

This category includes new traffic signals and signal modifications throughout the City.

### Wastewater and Storm Drain Systems

This category includes extensions, replacements, rehabilitations and modifications of the sewer and storm drainage system.

### Water Systems

This category includes projects related to the Water Treatment Plant and extensions, replacements, rehabilitations and modifications of the water distribution system.

**Fund Name****Fund Description**

---

**Capital Improvement Fund**

This fund was established to set aside money from various funds for any Capital Improvement project not provided for in one of the other funds, such as parks and community facilities improvement projects. The City may transfer General Fund dollars to the Capital Improvement Fund as funding becomes available. Decisions to transfer funds from various funding sources to the Capital Improvement Fund are made annually by the City Council.

---

**Road Maintenance and Rehabilitation Account (RMRA) Fund**

The California SB1 Act included RMRA funding to support maintenance and safety improvements on highways, local streets and roads, and bridges that do not meet state performance criteria.

---

**Gas Tax Fund**

The City receives gas tax funds from the State of California, as provided by the State Street and Highways Code. The gas tax funds are limited to research, planning, construction, improvement, maintenance, and operation of public streets. The City also uses these funds to pay for maintenance and operation of streetlights and traffic signals.

---

**Marina Fund**

This fund accounts for the operation, including capital improvements, of the City's Marina and the Fulton Shipyard Boat Ramp. Funds are collected from lease agreements, berth rentals and launch fees.

Fund Name	Fund Description
<b>Measure “J” Return to Source</b>	The source of money for this fund is the voter approved one-half cent sales tax. Provided the City has complied with the Growth Management Program, each year the City receives return to source funding from the Contra Costa Transportation Authority to be used for transportation improvement and maintenance projects.
<b>Traffic Signal Fund</b>	Fees are collected from developers to fund offsite traffic signals.
<b>Water &amp; Sewer Related Reserve Funds</b>	<p>The City collects user and developer fees to fund offsite water and sewer facility improvements. The fees are placed into one of the following four funds:</p> <ul style="list-style-type: none"> <li>• Water Fund</li> <li>• Sewer Fund</li> <li>• Water System Improvements Fund</li> <li>• Sewer System Improvements Fund</li> </ul>
<b>National Pollutant Discharge Elimination System Fund (NPDES)</b>	The National Pollutant Discharge Elimination System was mandated by the Clean Water Act of 1987 to reduce storm water related pollution. The program is funded by a parcel assessment.
<b>Funding Agreement for the Northeast Annexation Infrastructure Improvement</b>	In 2013 the City entered into reorganization and a property tax revenue allocation agreement with Contra Costa County for the annexation of the northeast area. Per the agreement, the City will receive property tax revenue from the Contra Costa County for the construction of the infrastructure improvements needed within the northeast annexation area.

Fund Name	Fund Description
<b>Delta Fair Property Fund</b>	This fund was created when the City sold property it owned on Delta Fair Boulevard at the City’s western City limits. The property was originally purchased from the State on the condition that it is to be used for public purposes. When it was decided that the property was more suitable for commercial use and should be sold or leased, the State gave its permission on the condition that the proceeds be used for park purposes.
<b>American Rescue Plan Act (ARPA)</b>	ARPA is a federal stimulus bill to aid public health and economic recovery from the COVID-19 pandemic. The plan includes \$350 billion in emergency funding for state, local, territorial and tribal governments, known as the Coronavirus State and Local Fiscal Recovery Funds.
<b>Recreation Fund</b>	This fund provides programs that focus on youth and family enrichment, healthy lifestyles, sports and fitness and services for older adults. The Parks and Recreation Department maintains a variety of facilities and spaces that are hosted by city programs and are also available for reservation by residents. Recreation Services ensure that all residents have access to the benefits of local parks and recreation.

## Grant Name

## Grant Description

---

### **Congestion Mitigation Air Quality (CMAQ)**

CMAQ funds are federal funds used to reduce emission from vehicle travel and provide alternatives to driving alone. Signal timing is another example of emission reduction.

---

### **Community Development Block Grant (CDBG) Fund**

This fund accounts for grant funds received from the Federal Government for the purpose of developing community programs and urban renewal projects.

---

### **Highway Safety Improvements Program (HSIP)**

The purpose of this federal-aid program is to achieve a significant reduction in fatalities and serious injuries on all public roads. The Hazard Elimination Safety (HES) is included in this program.

---

### **Transportation Development Act (TDA)**

TDA provides state funding from sales taxes to each county and city, for transit operations and bicycle facilities.

---

### **Active Transportation Program (ATP)**

Funding under this program is intended to encourage increased use of active modes of transportation, such as biking and walking. Safe Routes to School is now included in this grant program.

---

### **Surface Transportation Program (STP)**

The program provides funding for construction projects to help preserve local streets and roads, such as rehabilitation, resurfacing, restoration, and roadway improvements.

---

### **Integrated Regional Water Management (IRWM) Prop 1 Grant**

This program provides grant funds to projects that address drinking, waste, and storm water issues, especially for disadvantaged communities. Funds from this grant go to supporting the implementation of the project.

---

**Grant Name****Grant Description**

---

**Proposition 1E Storm  
Water Flood Management  
Grant**

The storm water management portion of Proposition 1E is designed for projects that manage storm water runoff to reduce flooding and are ready, or nearly ready to proceed to implementation. The Storm Water Flood Management Grants are being disbursed to local agencies through the Integrated Regional Water Management (IRWM) Grant program and provide a 50 percent cost match for the project.

---

**One Bay Area Grant  
(OBAG 2/3) Program**

The inaugural One Bay Area Grant Program was adopted by MTC in 2012 to guide federal funds from 2012-13 through 2016-17. OBAG 2 is the second round of OBAG funding and OBAG 3 is the third round of OBAG funding. The OBAG 2 and OBAG 3 program is divided into a Regional Program, managed by MTC, and a County & Local Program, managed by MTC in partnership with the nine Bay Area County Transportation Agencies. Cities and counties can use these funds to invest in:

- Local street and road maintenance
- Streetscape enhancements
- Bicycle and pedestrian improvements
- Safe Routes to School projects
- Priority Conservation Areas (PCAs)
- Transportation planning

---

**California Natural  
Resources Agency Grant**

This funding was appropriated by the State Legislature in Senate Bill (SB) 129, Chapter 69 (Control Section 19.56 Enacted Budget), which was approved by Governor Newsom on July 12, 2021.

## Grant Name

## Grant Description

---

### **MTC's Pavement Management Technical Assistance Program (P-TAP)**

This program uses federal dollars to help Bay Area cities and counties stretch their road budgets by:

- Implementing, updating and maintaining pavement management databases
  - Providing accurate pavement condition data to city councils, county supervisors or other local decision makers
  - Supporting the region's management of non-pavement street and road assets, such as signs, storm drains, curbs and gutters, traffic signals and streetlights as pilot projects
- 

### **Proposition 68**

The purposes of Prop 68 include creating parks, enhancing river parkways, and protecting coastal forests and wetlands. Prop 68 also provides funding for outdoor access, lower cost coastal accommodation and climate adaptation.

---

### **Safe Streets and Roads for All (SS4A)**

This program funds regional, local and Tribal initiatives through grants to prevent roadway deaths and serious injuries.

---

## Special Funds

### Roadway Maintenance Projects

The City of Antioch has approximately 336 centerline miles of roadway within City limits.

As part of the City Pavement Management System Program, the City of Antioch selected a pavement management consultant to perform a Pavement Management Update for the City by inspecting the pavement conditions of arterial, collector and residential streets.

The Pavement Management System Report, which was completed in 2023, rated the City's overall network condition as a 64 PCI (Pavement Condition Index). The PCI is a value on a rating scale from 0 to 100 (where 100 is equivalent to a new street). A PCI between 60 and 69 is considered "fair". According to the 2023 Pavement Management System Report, the City's current backlog (deferred maintenance) is approximately \$302 million. Backlog is defined as the unfunded needs to bring the overall network condition to optimum levels (81-82 PCI).

In addition to the City's funds allocated to the CIP for roadway improvements projects, the City's Street Maintenance Division also contributes to roadway improvements each fiscal year repairing deteriorating pavement, utility service repairs and utility trenches. The work is performed using a combination of City staff and private contractors.

## Development Impact Fees and Park-In-Lieu Fees Projects

On March 25, 2014, City Council adopted the Development Impact Fees and Quimby Act/Park In-Lieu Fees, which became effective April 24, 2014. These fees are one-time charges on new development that are collected and used by the City to cover the cost of capital facilities and infrastructure that are required to serve new growth. Implementation of these future projects is based on the rate of growth, timing of fee collection, and full project funding. The following projects will occur beyond the five-year term of this document:

## Pedestrian/ADA Improvements

Location: Citywide

Project Manager: Scott Buenting

Estimated Completion: Ongoing Program

**Project Description:** This project will construct new curb ramps in conformance with State and American with Disability Act guidelines and replace damaged sidewalks.

**Justification:** The project will improve pedestrian access by installing curb ramps and reducing hazards in the public right of way.

## Sidewalk Repair Program

Location: Citywide

Project Manager: Mitchell Loving

Estimated Completion: Ongoing Program

**Project Description:** This program will replace concrete sidewalks, curb and gutter that have been damaged by tree roots or broken as part of an underground utility repair. The program also installs new curb ramps to improve pedestrian accessibility.

**Justification:** Overgrown tree roots and repairs to underground utilities damage sections of concrete curb, gutter, and sidewalk. The program helps to mitigate risks of trip and fall incidents throughout the City.

## Pavement Management System Program

Location: Citywide

Project Manager: Scott Buenting

Estimated Completion: Ongoing Program

**Project Description:** This program evaluates City streets every two years based on pavement condition and provides pavement repair options. The City will seek a federal grant, P-TAP (Pavement Management Technical Assistant Program) to assist with the program.

**Justification:** A Pavement Management Plan is required as a condition of Measure "J" funding for street improvements. P-TAP Funding is often available for this work.

## Traffic Signal: James Donlon Blvd./Metcalf St

Location: The intersection at James Donlon Boulevard and Metcalf Street

Project Manager: Scott Buenting

Estimated Completion: 2029

Project Description: This project will install a new traffic signal and related facilities at the intersection of James Donlon Blvd. /Metcalf Street and Laurel Road/Canada Valley Road.

Justification: This facility is expected to improve traffic safety in the area following additional development.

## Water Main Replacement Program

Location: Citywide

Project Manager: Scott Buenting

Estimated Completion: Ongoing Program

**Project Description:** This program replaces deteriorated water facilities to improve efficiency in the existing system as identified in the Water System Master Plan or as requested by the Water Distribution Division.

**Justification:** Portions of the existing water system are aging and/or have experienced failures due to deterioration and need replacement and upgrades.

## Water Studies and Planning

Location: Citywide

Project Manager: Scott Buenting

Estimated Completion: Ongoing Program

**Project Description:** This project will prepare and update various water studies and planning documents including the Water System Master Plan, Water Rate Study, Risk Management Plan, Urban Water Management Plan Update, Watershed Sanitary Survey Update, Groundwater Sustainability Plan, Integrated Regional Water Management Plan, Risk Resilience Assessment and Emergency Response Plan.

**Justification:** Various water related studies and planning documents must be completed for the City to be compliant with State and industry requirements.

## Storage Reservoir Rehabilitation

Location: Citywide

Project Manager: Scott Buenting

Estimated Completion: 2030

**Project Description:** This project rehabilitates water storage reservoirs throughout the City. Work to be performed may include recoating, repainting, installation of mixers and sampling stations and seismic upgrades.

**Justification:** Maintenance and upgrades of water storage reservoirs are necessary to prolong their useful lives.

## Water Treatment Plant Solids Handling Improvements

Location: Water Treatment Plant

Project Manager: Marcus Woodland

Estimated Completion: 2028

**Project Description:** This project will evaluate the existing solids handling and dewatering operation at the Water Treatment Plant and, if warranted, design and construct additional facilities.

**Justification:** Solids handling and dewatering are currently performed by a private contractor. This exercise will determine if a City owned system may be more cost effective.

## Brackish Water Desalination

Location: Water Treatment Plant

Project Manager: Scott Buenting

Estimated Completion: 2025

**Project Description:** This project will construct a 6 MGD brackish water desalination plant that would treat water from the San Joaquin River during times of high chloride content. The work will include the replacement of the City's river intake facility and install a new fish screen. Approximately 4 miles of pipeline will be constructed to convey brine concentrate from the water treatment plant to Delta Diablo.

**Justification:** This process will enable the City the ability to treat river water in times of drought and future dry conditions due to climate change and protect the City's Pre-1914 water rights.

## Sewer Main Trenchless Rehabilitation

Location: Citywide

Project Manager: Scott Buenting

Estimated Completion: Ongoing Program

**Project Description:** This program rehabilitates damaged and deteriorated sanitary sewer pipelines utilizing trenchless methods such as pipe bursting and cured in-place pipe installation.

**Justification:** Portions of the existing sanitary sewer collection system are damaged or deteriorating and need replacement and upgrades. Trenchless rehabilitation of sanitary sewer pipelines is much less expensive than replacement of the pipeline due to the small excavation required to access the pipelines and minimum damage to the ground surface.

## Overhead Utility Undergrounding

Location: TBD

Project Manager: Scott Buenting

Estimated Completion: 2027

Project Description: This project will convert the overhead utilities to underground at locations to be determined.

Justification: Undergrounding overhead utilities increases safety and longevity of the system.

## Contra Loma Estates Park Renovation

Location: Contra Loma Estates Park

Project Manager: Mitchell Loving

Estimated Completion: 2025

**Project Description:** This project will renovate Contra Loma Estates Park by constructing new lighted walking pathways with outdoor exercise equipment, shaded picnic, and barbeque areas, climbing features near the existing playground, a dog park, basketball court lighting and restroom.

**Justification:** The City received grant funding to renovate this underutilized park.

## Prewett Park Pool Resurfacing

Location: Prewett Park

Project Manager: Brad Helfenberger

Estimated Completion: 2026

**Project Description:** This project will replace the deteriorating pool plaster on multiple pools.

**Justification:** Industry standard is to replaster commercial pools once every 10 years. None of the Water Park pools have been replastered in that timeframe. Aging pool plaster emits mineral dust that clogs pool filters creating future repairs for filtration systems. Additionally, rough spots where plaster has worn out are currently showing, creating safety hazards for guests, and generally contributing to an undesirable appearance.

## Prewett Park Grand Plaza Shade Structure Upgrade

Location: Prewett Park

Project Manager: Scott Buenting

Estimated Completion: 2025

**Project Description:** This project will improve the shade structure at the Grand Plaza at Prewett Park by installing a lattice roof.

**Justification:** The previous fabric shade product was destroyed during a wind event in October 2019 and was discarded. Upgrading to a lattice roof will provide stronger product sustainability and reduce risk of injury to persons and damage to the facility.

## Facility Maintenance and Repairs

Location: Citywide

Project Manager: Carlos Zepeda

Estimated Completion: Ongoing Program

**Project Description:** This project consists primarily of roof repairs at several City facilities. There will be additional siding repair at the Prewett Water Park and incidental HVAC ducting repairs due to roof repairs and maintenance.

**Justification:** Ongoing maintenance of City owned facilities is crucial to continue providing needed services to the City's residents and to maintain the value of the City's assets.

## Trail Maintenance Program

Location: Various Trails Citywide

Project Manager: Carlos Zepeda

Estimated Completion: Ongoing Program

**Project Description:** This program will install asphalt concrete overlays on existing paved trails to preserve the integrity of the pathways. The work is scheduled to be performed on Mokelumne Trail, Deerfield Corridor, Almondridge Trail, Lexington Pathway, Bellflower Trail, and Mesa Ridge Trail from Deer Valley to Grass Valley and Mokelumne Dr. to Deer Valley Road.

**Justification:** Maintenance of the City's trail system provides safe access through the City's open spaces.

## Integration and Upgrade of Access Control, Surveillance, Monitoring, and Fire Alarm

Location: All City Facilities

Project Manager: Carlos Zepeda

Estimated Completion: 2025

**Project Description:** This project will include installation of new security access, monitoring and surveillance hardware at all City facilities. Cameras, intrusion, and security access will be added at facilities which currently do not have security monitoring. Existing facilities with security will be upgraded as well to bring all the City's building under one security monitoring systems provider.

**Justification:** The City seeks to always maintain the security of its employees and infrastructure. Upgrading and adding security and fire monitoring capabilities throughout the City's facilities achieves this goal.

## Installation of Police Department Radio Simulcast Tower

Location: 75 Walton Lane

Project Manager: Scott Buenting

Estimated Completion: 2025

**Project Description:** This project will install a simulcast tower at 75 Walton Lane that will provide additional radio coverage in the southwest part of the City.

**Justification:** Currently, there is a large "dead" radio coverage area in the southwest part of the city. This creates a significant safety issue for our employees, as well as the public. Installation of the radio simulcast tower will improve response to calls in this area.

## Nick Rodriguez Community Center Rehab

Location: Nick Rodriguez Community Center/Antioch Senior Center

Project Manager: Brad Helfenberger

Estimated Completion: 2025

**Project Description:** This project will remodel, upgrade ADA accessibility and technology, and replace the roof at the Nick Rodriguez Community Center and Antioch Senior Center.

**Justification:** Currently, the facility is not ADA compliant, existing amenities have reached the end of service life, and hazardous material mitigation will be necessary during construction. Upgrades are needed to provide high quality recreation programs and services to the residents in downtown/northern Antioch.

## AMI Water Meter Reading Upgrade

Location: Citywide

Project Manager: Shaun Connelly

Estimated Completion: Ongoing Program

**Project Description:** This project will replace the existing drive-by Automatic Meter Reading system with Advanced Metering Infrastructure (AMI) which provides real-time water meter reading. This project requires a full retrofit of all existing water meter and meter box lids to allow water meter readings to communicate through a cellular network.

**Justification:** The cellular water meter upgrade will provide real-time meter readings to residents online. City staff will have access to reliable water meter readings and effectively address customer service concerns. Water conservation is a priority to the City and this system upgrade enables the City to continue improving its conservation efforts.

## East Antioch Creek Outfall Improvements

Location: East Antioch Creek

Project Manager: Scott Buenting

Estimated Completion: 2026

**Project Description:** This project will replace the East Antioch Creek outfall near the intersection of Fulton Shipyard Road and McElhaney Road. The work will include replacement of two sections of storm drainpipe with associated flapper gates and reconstructing a deteriorating sanitary sewer pipeline that crosses the outfall piping.

**Justification:** The storm drains and sewer pipelines are deteriorating and causing tidal water to erode soil on the outside of the pipes. These lines affect soil stability under an access road.

## Sodium Hypochlorite Injection Distribution System Improvements

Location: Water Treatment Plant

Project Manager: Marcus Woodland

Estimated Completion: 2027

**Project Description:** This project will add sodium hypochlorite injection facilities at critical points of the distribution system.

**Justification:** The system has met its useful life and will need to be replaced. The City constantly struggles to maintain water quality in far parts of the system especially during low demand periods. Sodium hypochlorite injection will improve water quality, decrease consumer taste and odor complaints and prevent nitrification.

## Water Treatment Plant Variable Frequency Drives

Location: Water Treatment Plant

Project Manager: Marcus Woodland

Estimated Completion: 2029

**Project Description:** This project will add variable frequency drives to the City's existing treated water distribution system with the Water Treatment Plant.

**Justification:** The system will allow operators to slowly ramp up and control the flow of water leaving the treatment plant into the distribution system. The current motors do not allow any modification and are off or on, which is not ideal to maintain pressure and manage the system efficiently. Variable frequency drives will lessen the likelihood of main breaks from turning on and off pumps at the plant and provide a more consistent method of operation.

## Chemical Injection Modifications

Location: Water Treatment Plant

Project Manager: Marcus Woodland

Estimated Completion: 2025

## Canal Pump Variable Frequency Drives

Location: Canal Pump on Lone Tree Way

Project Manager: Scott Buenting

Estimated Completion: 2027

Project Description: This project will install variable frequency drives at the canal pumps.

Justification: The variable frequency drive motors will increase the lifespan of existing pumps and allow operations to fill and drain the Antioch Municipal Reservoir more responsibly and efficiently. This addition will lessen the impact on the reservoirs earthen dam.

## Bicycle Garden Construction

Location: Prewett Community Park

Project Manager: Scott Buenting

Estimated Completion: 2026

**Project Description:** The Bicycle Garden will be a hands-on bicycle training facility and designed like a miniature city streetscape. The park would consist of small roads that weave in and around landscaped areas with smaller scaled versions of real-life traffic features including signals, traffic signs, road markings, bus stops, bike lanes, train tracks, and more to help youth learn the rules-of-the-road.

**Justification:** To improve amenities to the residents of Antioch.

## Trail Crossing Improvements

Location: Various Trail Crossings

Project Manager: Scott Buenting

Estimated Completion: 2026

Project Description: This project will install Hawk signals at trail crossings to enhance pedestrian and bicycle safety.

Justification: Installation of Pedestrian Hybrid Beacon (HAWK Signal) at the trail crossings has a potential to greatly enhance pedestrians' safety at locations that are noted as being problematic in the past.

## Signal System Upgrade at Various Locations

Location: Various Locations

Project Manager: Scott Buenting

Estimated Completion: 2026

**Project Description:** This project will improve signal hardware including lenses, backplates with retroreflective borders, mounting, size, and number. This will also install pedestrian countdown signal heads and install an advance stop bar before cross walk.

**Justification:** Enhancing the signal hardware will provide better visibility of intersection signals and aid the drivers in advance perception of the upcoming intersection. Installation of pedestrian countdown signal heads will enhance pedestrian safety and result in reduction of collisions between pedestrians and vehicles. Installation of an advance stop bar before crosswalk will enhance pedestrian and bicycle safety by providing a buffer between the vehicles and pedestrians and bicycles.

## Countywide Smart Signals

Location: Various Locations throughout the City

Project Manager: Scott Buenting

Estimated Completion: 2027

**Project Description:** The Project will install a signal system and Intelligent Transportation System (ITS) equipment upgrades to key identified intersections within Contra Costa County cities with the objective to coordinate and synchronize the timing of the signals.

**Justification:** The existing traffic signal systems are outdated or antiquated compared to newer traffic signal systems. These signal systems currently lack communication infrastructure such as fiber and cellular/wireless-based communication, which makes it difficult to implement traffic signal synchronization and coordination between traffic signals along an arterial.

## Playground Replacement Program

Location: Harbour, Mountaire, Antioch Community, Williamson Ranch, Chapparal, and Meadow Creek Parks

Project Manager: Derek Traya

Estimated Completion: Ongoing Program

Project Description: This project will replace seven playgrounds identified as high safety risks based on the citywide park assessments conducted by Miracle PlaySystems in March 2025.

Justification: This project will meet the Consumer Product Safety Commission (CPCS) and the American Society for Testing and Materials (ASTM) standards for playground systems and eliminate the existing safety risks with the existing playground.
