As a result of this settlement, CCWD has withdrawn its protest of the DWR Petition to Change Diversion locations proposed as part of the CWF. The documents related to this settlement are posted on the CCWD website <http://www.ccwater.com/317/Bay-Delta-Conservation-Plan-Comments>. - February 2016 brought us to the end of the initial water conservation mandate issued by the State of California. The City of Antioch was required to conserve 28% based on 2013 usage through the month of February 2016. Thanks to your outstanding efforts, our total cumulative reduction since July 2015 is 29.78%. At the end of January 2016, the State extended its mandatory conservation order through October 2016. Final guidance is still being worked out as the State monitors the snow pack and reservoir levels through this winter. Please continue to conserve this valuable resource and plan on conserving throughout 2016. Outdoor water conservation will be the primary focus of the City’s program, as well as fines for wasteful practices as identified in the Water Conservation Resolution adopted by the City Council on May 12th, 2015. All Antioch customers were mailed a letter explaining the program and prohibitions, as well as 2013 monthly water usage. Examples of prohibitions are: three day per week residential outdoor watering, no watering between the hours of 9:00 a.m. and 5:00 p.m., shut off nozzles required on all hoses, and drinking water available only upon request at restaurants. Contra Costa Water District has incentives, such as residential high-efficiency clothes washer rebates, water-efficient landscape rebates and smart sprinkler timer rebates.
