Spring Irrigation tips:

- Contra Costa Water District (CCWD) announced that they have signed a settlement agreement with the California Department of Water Resources (DWR), which

according to CCWD will “protect its customers, facilities, and operations if the Bay Delta Conservation Plan/WaterFix (CWF), aka the ‘twin tunnels’, is built.” The March 29th CCWD News Release also states, “The agreement is an insurance policy to protect the unique water quality and supply issues raised by CCWD”. As a result of this settlement, CCWD has withdrawn its protest of the DWR Petition to Change Diversion locations proposed as part of the CWF. The documents related to this settlement are posted on the CCWD website <http://www.ccwater.com/317/Bay-Delta-Conservation-Plan-Comments>. - February 2016 brought us to the end of the initial water conservation mandate issued by the State of California. The City of Antioch was required to conserve 28% based on 2013 usage through the month of February 2016. Thanks to your outstanding efforts, our total cumulative reduction since July 2015 is 29.78%. **At the end of January 2016, the State extended its mandatory conservation order through October 2016.** Final guidance is still being worked out as the State monitors the snow pack and reservoir levels through this winter. Please continue to conserve this valuable resource and plan on conserving throughout 2016. Outdoor water conservation will be the primary focus of the City’s program, as well as fines for wasteful practices as identified in the Water Conservation Resolution adopted by the City Council on May 12th, 2015. All Antioch customers were mailed a letter explaining the program and prohibitions, as well as 2013 monthly water usage. Examples of prohibitions are: three day per week residential outdoor watering, no watering between the hours of 9:00 a.m. and 5:00 p.m., shut off nozzles required on all hoses, and drinking water available only upon request at restaurants. Contra Costa Water District has incentives, such as residential high-efficiency clothes washer rebates, water-efficient landscape rebates and smart sprinkler timer rebates. More information on water conservation programs and ideas on how to conserve water can be found at www.ccwater.com or www.antiochwater.com. Customers who are not in compliance with drought restrictions can be reported to the Antioch Drought Hotline at (925) 779-6140.

CITY MANAGER'S NOTES

On Monday, I attended the quarterly Contra Costa Economic Partnership (CCEP) Board Meeting in Walnut Creek. The key topic of discussion was the proposed ½ cent sales tax for transportation projects sponsored by the Contra Costa Transportation Authority (CCTA). I and the other City Managers on the CCEP Board made the case for a 23% return to source provision for revenue from the tax if passed.

On Thursday, I attended the Contra Costa County Public Managers Association (PMA) Meeting in Walnut Creek. (No surprise) The key topic of discussion was the proposed ½ cent sales tax for transportation projects sponsored by the CCTA. With CCTA staff in attendance and presenting the status of the proposed measure, all City Managers in the county are supporting a 23% return to source provision for maintenance of local streets and roads, with no strings attached. All Contra Costa cities and the county are short on funding for basic maintenance of the public infrastructure.

This morning, Ron Bernal and I attended the Contra Costa Continuum of Care quarterly meeting, which featured: (1) Antioch Police Captain Diane Aguinaga moderating a panel discussion on the impacts of local ordinances on homeless issues and (2) Antioch's Community Development Block Grant (CDBG) consultant Terri House leading a discussion on best practices dealing with homelessness issues.
