#### **CDBG:**

- The 2016-17 Action Plan will go before the City Council May 10<sup>th</sup>.

#### **Housing:**

- Housing Consultant continues to enter additional information on each loan to complete all fields of new Housing Loan monitoring system by CDS.

#### **Homeless:**

- The first County Budget Hearing occurred on 4/19. The Chair of the Council on Homelessness, along with over 25 other speakers, appealed to the Supervisors to increase funding for homeless outreach, multi-service centers, and the family emergency shelters. More vigorous action may be taken at the next budget meeting in May if some amount of additional funding is not allocated this coming

budget cycle. It is the opinion of the Council that the holes in the County's front-line safety net for homeless persons have grown too large, and such continued disinvestment cannot continue.

Two of the Supervisors specifically said that they thought cities should be doing more to support homeless services. Antioch's CDBG Consultant (Chair of the Council) was able to counter with the amount of funding spent annually by Antioch (\$50,000) on homeless services, and briefly mention the City's new partnership with local Community Based Organizations (CBOs) to create a 50-bed homeless shelter for women and children. The Council will be discussing other city support at future meetings, as certainly there are many cities who have avoided helping to address this critical issue.

- The April 15<sup>th</sup> General Meeting of the Contra Costa Homeless Continuum of Care was very well attended, especially by various Police Departments throughout the county. Captain Aguinaga moderated the panel, asking questions and fielding a large number of questions from the audience.

#### **Drought Updates:**

**In March, Antioch Water Customers used 35% less than in 2013. Great job everyone! This takes our cumulative total to 30.18% since last summer.** Our State mandated reduction goal was reduced from 28% to 27% moving forward, so keep up the great work and remember as we move into spring the following prohibitions:

- a. Watering of outdoor landscapes in a manner that causes excessive runoff such that water flows onto adjacent property, non-irrigated areas, private and public walkways, roadways, parking lots, or structures
- b. Watering of outdoor landscapes during and up to 48 hours after measurable rainfall.
- c. Watering of outdoor landscapes more than three days per week as follows:
  - Even addresses assigned days to irrigate are Tuesday, Thursday, Saturday
  - Odd addresses assigned days to irrigate are Wednesday, Friday, Sunday
  - Watering of outdoor landscapes during the daylight hours of 9:00 am – 5:00 pm.
- d. Washing a vehicle, trailer or boat using a hose without a shut off nozzle.
- e. Washing paved or other hard-surfaced areas, including sidewalks, walkways, driveways, patios, and parking areas.
- f. Use of water for non-recirculating decorative fountains or filling decorative lakes or ponds.
- g. Using a hose without an automatic shutoff nozzle.
- h. Failing to repair a controllable leak.

Hopefully April Showers will continue to bring May Flowers and Drought relief. If you are wondering if we have received 'measurable rainfall' in regards to the no irrigation rule above, visit <http://qismap.ccmmap.us/FloodControl/gmap/gmap.html>.

### Spring Irrigation tips:

If you haven't already done it, inspect your irrigation system to make sure nothing has broken over the winter. Early Spring is a good time to plant new plants. Visit [contracosta.watersavingplants.com/](http://contracosta.watersavingplants.com/) to find the right water saving plants for your yard! It will give them time to become established before the heat of summer is upon us.

March & April – Turn your controller back on if it hasn't rained in the past week. Make sure to turn it off again if it rains. Water lawns 2 days/week, shrubs 1 day/week

May - Water lawns 3 days/week, shrubs 2 days/week

### Last Week's Irrigation Repairs and Service:

- Parks Citywide: Spring irrigation is now beginning. Water is now on at Almondridge, ACP, Canal, Chichibu, Contra Loma Estates, Marchetti, Markley Creek and Village East Parks. All other parks are scheduled to begin soon.
- Delta Diamond: The baseball field turf is in process of renovation. Delta Diamond remains closed to use. Water is on at the field.
- Eagleridge Park: A non-working turf valve was replaced.
- Prewett Water Park: 2 non-functioning shrub watering valves were repaired.
- Hillcrest Ave – 17 sprinklers repaired.

## **PUBLIC WORKS UPDATES**

### Administration

- Free Weather Spotter Training! For any interested member of the public who wants to learn more about California's weather and how to observe, spot, and report weather conditions to help the National Weather Service (NWS) and the local community keep people safe. The training will be held at 10:00 a.m., Friday, April 29<sup>th</sup> at the Contra Costa County Emergency Services Division, located at 50 Glacier Drive, Martinez, CA 94553. Please contact Zack Adinoff at [zadin001@so.cccounty.us](mailto:zadin001@so.cccounty.us) or Brian Garcia at [brian.garcia@noaa.gov](mailto:brian.garcia@noaa.gov) with any questions.
- Contra Costa Water District (CCWD) announced that they have signed a settlement agreement with the California Department of Water Resources (DWR), which according to CCWD will "protect its customers, facilities, and operations if the Bay Delta Conservation Plan/WaterFix (CWF), aka the 'twin tunnels', is built." The March 29<sup>th</sup> CCWD News Release also states, "The agreement is an insurance policy to protect the unique water quality and supply issues raised by CCWD". As a result of this settlement, CCWD has withdrawn its protest of the DWR Petition to Change Diversion locations proposed as part of the CWF. The documents related to this settlement are posted on the CCWD website <http://www.ccwater.com/317/Bay-Delta-Conservation-Plan-Comments>. The CCWD Board of directors held a meeting on April 6<sup>th</sup> to explain the details of the agreement

and respond to questions from the public. They have also mailed out a letter to each customer explaining the settlement. Antioch residents will receive a copy of the letter as we purchase our raw water from CCWD before treating it and distributing to our customers.

- February 2016 brought us to the end of the initial water conservation mandate issued by the State of California. The City of Antioch was required to conserve 28% based on 2013 usage through the month of February 2016. Thanks to your outstanding efforts, our total cumulative reduction since July 2015 is 29.78%. **At the end of January 2016, the State extended its mandatory conservation order through October 2016.** Final guidance is still being worked out as the State monitors the snow pack and reservoir levels through this winter. Please continue to conserve this valuable resource and plan on conserving throughout 2016. Outdoor water conservation will be the primary focus of the City's program, as well as fines for wasteful practices as identified in the Water Conservation Resolution adopted by the City Council on May 12<sup>th</sup>, 2015. All Antioch customers were mailed a letter explaining the program and prohibitions, as well as 2013 monthly water usage. Examples of prohibitions are: three day per week residential outdoor watering, no watering between the hours of 9:00 a.m. and 5:00 p.m., shut off nozzles required on all hoses, and drinking water available only upon request at restaurants. Contra Costa Water District has incentives, such as residential high-efficiency clothes washer rebates, water-efficient landscape rebates and smart sprinkler timer rebates. More information on water conservation programs and ideas on how to conserve water can be found at [www.ccwater.com](http://www.ccwater.com) or [www.antiochwater.com](http://www.antiochwater.com). Customers who are not in compliance with drought restrictions can be reported to the Antioch Drought Hotline at (925) 779-6140.
