Some of the jungle boy's adventures are gripping, like the time he encounters the hooded cobra who guards the treasure vault in the Deserted City. Others, like the coconut-tossing monkeys who take him prisoner, are hysterical. But the jungle is also dangerous, for it is the home of Shere Khan, the man-eating tiger who has vowed to destroy Mowgli. With his fawning jackal follower, Shere Khan plots to take control of the jungle. Mowgli must use all his strength and courage to stop Shere Khan before it is too late. Performed by the children of El Campanil Children's Theatre.

Drought Updates:

In March, Antioch Water Customers used 35% less than in 2013. Great job everyone! This takes our cumulative total to 30.18% since last summer. Our State mandated reduction goal was reduced from 28% to 27% moving forward, so keep up the great work and remember as we move into spring the following prohibitions:

- a. Watering of outdoor landscapes in a manner that causes excessive runoff such that water flows onto adjacent property, non-irrigated areas, private and public walkways, roadways, parking lots, or structures
- b. Watering of outdoor landscapes during and up to 48 hours after measurable rainfall.
- c. Watering of outdoor landscapes more than three days per week as follows:
 - Even addresses assigned days to irrigate are Tuesday, Thursday, Saturday
 - Odd addresses assigned days to irrigate are Wednesday, Friday, Sunday
 - Watering of outdoor landscapes during the daylight hours of 9:00 am – 5:00 pm.
- d. Washing a vehicle, trailer or boat using a hose without a shut off nozzle.
- e. Washing paved or other hard-surfaced areas, including sidewalks, walkways, driveways, patios, and parking areas.
- f. Use of water for non-recirculating decorative fountains or filling decorative lakes or ponds.
- g. Using a hose without an automatic shutoff nozzle.
- h. Failing to repair a controllable leak.

Hopefully there will be some late spring rain to help us keep our water use down and continue to fill our reservoirs. If you are wondering if we have received “measurable rainfall” in regards to the no irrigation rule above, visit:

<http://gismap.ccmmap.us/FloodControl/gmap/gmap.html>.

Spring Irrigation tips:

If you haven't already done it, inspect your irrigation system to make sure nothing has broken over the winter. Early Spring is a good time to plant new plants. Visit contracosta.watersavingplants.com/ to find the right water saving plants for your yard! It will give them time to become established before the heat of summer is upon us.

In May, water lawns 3 days/week, and shrubs 2 days/week.

Last Week's Irrigation Repairs and Service:

- Parks Citywide: All City Parks are now watering.

- Dallas Ranch Park: The drinking fountain did not shut off Saturday, necessitating closure of the men's restroom until repairs could be completed on Monday.
- Delta Diamond: The baseball field turf is in process of renovation. Delta Diamond remains closed to use.
- Community Park: A 6" irrigation main-line was repaired. Irrigation water was off during repairs.
- Markley Creek Park: The dog drinking fountain stuck on last Saturday, repairs to the fountain are now complete.
- Mira Vista Hills Park: 2 broken turf sprinklers were replaced.
- Lone Tree Way: 1 irrigation valve rebuilt and 1 mainline repaired.
- Hillcrest Ave.: 25 sprinklers repaired.

PUBLIC WORKS UPDATES

Administration

- Contra Costa Water District (CCWD) announced that they have signed a settlement agreement with the California Department of Water Resources (DWR), which according to CCWD will "protect its customers, facilities, and operations if the Bay Delta Conservation Plan/WaterFix (CWF), aka the 'twin tunnels', is built." The March 29th CCWD News Release also states, "The agreement is an insurance policy to protect the unique water quality and supply issues raised by CCWD". As a result of this settlement, CCWD has withdrawn its protest of the DWR Petition to Change Diversion locations proposed as part of the CWF. The documents related to this settlement are posted on the CCWD website <http://www.ccwater.com/317/Bay-Delta-Conservation-Plan-Comments>. The CCWD Board of directors held a meeting on April 6th to explain the details of the agreement and respond to questions from the public. They have also mailed out a letter to each customer explaining the settlement. Antioch residents will receive a copy of the letter as we purchase our raw water from CCWD before treating it and distributing to our customers.
- February 2016 brought us to the end of the initial water conservation mandate issued by the State of California. The City of Antioch was required to conserve 28% based on 2013 usage through the month of February 2016. Thanks to your outstanding efforts, our total cumulative reduction since July 2015 is 29.78%. At the end of January 2016, the State extended its mandatory conservation order through October 2016. Final guidance is still being worked out as the State monitors the snow pack and reservoir levels through this winter. Please continue to conserve this valuable resource and plan on conserving throughout 2016. Outdoor water conservation will be the primary focus of the City's program, as well as fines for wasteful practices as identified in the Water Conservation Resolution adopted by the City Council on May 12th, 2015. All Antioch customers were mailed a letter explaining the program and prohibitions, as well as 2013 monthly water usage. Examples of prohibitions are: three day per week residential outdoor watering, no watering between the hours of 9:00 a.m. and 5:00 p.m., shut off nozzles required on

all hoses, and drinking water available only upon request at restaurants. Contra Costa Water District has incentives, such as residential high-efficiency clothes washer rebates, water-efficient landscape rebates and smart sprinkler timer rebates. More information on water conservation programs and ideas on how to conserve water can be found at www.ccwater.com or www.antiochwater.com. Customers who are not in compliance with drought restrictions can be reported to the Antioch Drought Hotline at (925) 779-6140.
