Appointees are required to file a FPPC Form 700 "Statement of

Economic Interests” within 30 days of their appointment by the City Council.

The **California Primary Election** will be held on **Tuesday, June 7<sup>th</sup>**. If you have recently moved to Antioch or want to change your registration, **May 23<sup>rd</sup> is the last day to register to vote in the June Primary**. Voter Registration forms are available at the Antioch City Clerk’s Office on the first floor of City Hall. The forms are hanging on the wall and no postage is required to mail them. Antioch voters will be interested in two City of Antioch ballot measures (**Measure E and Measure G**), the races for **District 3 and District 5 County Supervisor, State Assembly, State Senate, Congressional, U.S. Senatorial and Presidential primaries**. Get involved, register, study the issues, question the candidates and make your vote count!

You can save yourself the postage and drop off your **Mail-in (Absentee) Ballot at the City Clerk’s Counter** Monday through Friday from 8:30 am to 4:30 pm in the secure red Ballot Box.

**Early voting is also available to any registered Contra Costa Voter at the Prewett Water Park Multipurpose Room.** Just bring along your Contra Costa Voter Information Guide that has your name and address on it and you can vote prior to the June 7<sup>th</sup> Primary. If you live in Antioch, but work in Walnut Creek or San Ramon, there are early voting stations in five other cities where you can cast your vote (if you normally would vote at your local precinct on Election Day).

Our office received four California Public Records Act requests this week, which were all answered by the City Clerk’s Office.

On Wednesday, May 11<sup>th</sup>, the City Clerk participated in a historical and educational session with Second Grade students from Holy Rosary School, along with their teachers and parents. Former Mayor Donald Freitas provided them with a history of Antioch and how the City of Antioch is organized to provide services to its residents. He then had groups of five students sit in as the City Council, designating one of them as Mayor, and provided a series of examples of City Staff recommendations for them to debate and vote. It was even more entertaining when former Mayor Freitas had the teachers and some parents sit up on the dais as the City Council giving them some difficult decisions to make. Comments from the teachers and parents after that experience were that they had no idea how difficult it was to be in that position to make a decision without upsetting someone or some organization (as compared to sitting in the audience).

While Candidate Filing Period for two Council Members, Mayor, City Clerk and City Treasurer (depending on the outcome of Measure G, which would change the Treasurer from elected to appointed) does not officially begin until July 18<sup>th</sup>, several residents have already filed a Form 501 “Candidate Intention Statement” and some have already filed a Form 410 “Statement of Organization Recipient Committee” to obtain a FPPC ID number and begin collecting contributions. Here are the residents who have filed a Form 501 “Candidate Intention Statement” for the following offices:

Mayor: Wade Harper, Gilbert "Gil" Murillo, Sean Wright and Lori Ogorchock  
Council Member: Monica Wilson, Frederick Rouse and Mary Rocha  
City Clerk: Arne Simonsen

City Clerk Arne Simonsen covered for the City Clerk's Office the week during the absence of the Deputy City Clerk. The six resolutions approved by the City Council at the May 10<sup>th</sup> Council meeting were put in book form with copies made, signed and the City Seal applied.

A Form 410 "Statement of Organization Recipient Committee" was received by the City Clerk opposing Measure E. The committee is called "Antioch Friends for Local Control". At the same time, the Clerk received two Form 497 24-hour "Contribution Report" from this committee.

The City Clerk received an enquiry about starting an Initiative for the November General Election and references to the relevant sections of the Elections Code were provided.

## **Homeless:**

Workshops to design the new Coordinated Entry system for all homeless services in Contra Costa County have concluded, and the County Homeless Program staff are taking final input and finalizing the RFP. There will be about \$1 M to provide street outreach and Multi-Service Center (MSC) support for the entire county. The old MSC model will be transformed into a new, service-enhanced CARE Center. There was much discussion about the absence of an MSC or infrastructure for a new CARE center in East County since the ANKA center outgrew its space. Establishing new infrastructure - leasing a building and doing tenant upgrades to add showers, etc. - is very expensive and would exceed the entire grant. The existing funding is not enough to keep the existing centers in Central and West County operational in the new way they are envisioned and fund the infrastructure for East County. There was discussion of CARE Capable centers, and what they would look like, and the possibility of developing one in East County over the next year to two years. The Family Justice Centers were viewed as a possibility for a CARE Capable site, for example. Also discussed was the possibility of developing a Mobile Center for East County, which would need further research and development. Agencies applying for the funding will need to carefully consider all these possibilities and address them in their response to the Coordinated Entry System RFP.

There is also additional funding available through the Emergency Solutions Grant (ESG) program to benefit the cities of Antioch, Pittsburg, Concord, and Walnut Creek. Formerly administered by the State, these funds have been transferred to the County to administer. Annual funding is approximately \$270,000. ESG funds must benefit those who are homeless or at risk of becoming homeless and may be used for five program components: street outreach, emergency shelter, homelessness prevention, rapid re-housing assistance, and Homeless Management Information System (HMIS). A minimum of 40% of the funds must be used for Rapid Re-housing activities. Project applications will be made available on May 23, 2016 and must be completed and submitted to the County no later than 5:00 PM on June 17, 2016. All applications will be required to be completed and submitted electronically via <http://www.citydataservices.net/>. Interested agencies should attend an informational meeting on May 23, 2016, in which staff will go over information regarding the eligibility and requirements of the ESG Program, plus how to access and complete the application. More details can be found in the RFP on the County's Department of Conservation website at the following link: <http://www.contracosta.ca.gov/4823/Community-Development-Block-Grant>.

### Spring Irrigation tips:

If you haven't already done it, inspect your irrigation system to make sure nothing has broken over the winter. Early spring is a good time to plant new plants. Visit [contracosta.watersavingplants.com/](http://contracosta.watersavingplants.com/) to find the right water saving plants for your yard! It will give them time to become established before the heat of summer is upon us.

May - Water lawns 3 days/week, shrubs 2 days/week

## PUBLIC WORKS UPDATES

### Administration

- Cavallo Road is scheduled to be closed at State Route 4 on Saturday, May 14<sup>th</sup>. Construction work will also be underway on Sunset Drive near Hillcrest Avenue and on Larkspur Drive near Hillcrest Avenue requiring the traffic signals to be put into flashing operation. This inconvenience will enable the construction to be completed sooner. Thank you for your understanding.
- Contra Costa Water District (CCWD) announced that they have signed a settlement agreement with the California Department of Water Resources (DWR), which according to CCWD will “protect its customers, facilities, and operations if the Bay Delta Conservation Plan/WaterFix (CWF), aka the ‘twin tunnels’, is built.” The March 29<sup>th</sup> CCWD News Release also states, “The agreement is an insurance policy to protect the unique water quality and supply issues raised by CCWD”. As a result of this settlement, CCWD has withdrawn its protest of the DWR Petition to Change Diversion locations proposed as part of the CWF. The documents related to this settlement are posted on the CCWD website <http://www.ccwater.com/317/Bay-Delta-Conservation-Plan-Comments>. The CCWD Board of directors held a meeting on April 6<sup>th</sup> to explain the details of the agreement and respond to questions from the public. They have also mailed out a letter to each customer explaining the settlement. Antioch residents will receive a copy of the letter as we purchase our raw water from CCWD before treating it and distributing to our customers.
- February 2016 brought us to the end of the initial water conservation mandate issued by the State of California. The City of Antioch was required to conserve 28% based on 2013 usage through the month of February 2016. Thanks to your outstanding efforts, our total cumulative reduction since July 2015 is 29.78%. **At the end of January 2016, the State extended its mandatory conservation order through October 2016.** Final guidance is still being worked out as the State monitors the snow pack and reservoir levels through this winter. Please continue to

conserve this valuable resource and plan on conserving throughout 2016. Outdoor water conservation will be the primary focus of the City's program, as well as fines for wasteful practices as identified in the Water Conservation Resolution adopted by the City Council on May 12<sup>th</sup>, 2015. All Antioch customers were mailed a letter explaining the program and prohibitions, as well as 2013 monthly water usage. Examples of prohibitions are: three day per week residential outdoor watering, no watering between the hours of 9:00 a.m. and 5:00 p.m., shut off nozzles required on all hoses, and drinking water available only upon request at restaurants. Contra Costa Water District has incentives, such as residential high-efficiency clothes washer rebates, water-efficient landscape rebates and smart sprinkler timer rebates. More information on water conservation programs and ideas on how to conserve water can be found at [www.ccwater.com](http://www.ccwater.com) or [www.antiochwater.com](http://www.antiochwater.com). Customers who are not in compliance with drought restrictions can be reported to the Antioch Drought Hotline at (925) 779-6140.
