MONTHLY NEIGHBORHOOD CLEAN-UP

The Antioch Police Department is excited to announce the 71st installment of the Neighborhood Cleanup Program. This is a collaborative community effort which involves active participation from The Antioch Police Department Crime Prevention Commission; Neighborhood Watch Program; Volunteers in Police Service; community volunteers and the Public Works Department.

This event will occur on Saturday, June 4th from 9:00 a.m. to 11:00 a.m. Volunteers should meet/check in at the Antioch Water Park. In recognition of *National Trails Day*, we will be partnering with the Parks and Recreation Division to clean along local walking trails, the Skate Park, and other designated areas. Volunteers will receive trail maps, instructions, and the equipment necessary to accomplish the goal. The targeted area is within walking distance. Excluding inclement weather, future Neighborhood Cleanup events are scheduled for the first Saturday of every month and the locations will be announced in advance.

The City of Antioch Neighborhood Cleanup program is not just for residential neighborhoods. It is a program that will change venues on a monthly basis and it will include business and commercial areas as well. Neighborhoods that are free of trash and refuse are inviting, and a clean community instills a sense of community pride. Remember, cleaning up your neighborhood can make life better for your family, your neighbors and your community!

Programs funded for 2016-17 are finalizing their budgets and goals and the City is getting ready to write the renewal contracts. The CDBG consultant will conduct final monitoring visits for the year, and ready for closeout on June 30th. The Consolidated Annual Performance Evaluation Report (CAPER) for FY 2015-16 is due to HUD no later than September 30th.

Housing:

Construction conferences continue weekly with all funding parties of the Satellite Tabora Gardens development. The bid solicitation package is scheduled to be published 6/3/16 and bids to be due to the general contractor by 7/8/16. Information will then be finalized for the construction loan, which shall be reviewed by Wells Fargo. Closing is estimated to occur mid-August. A date for the groundbreaking will be determined in July.

The Housing Consultant continues to enter additional information on each loan to complete all fields of new Housing Loan monitoring system by CDS.

Homeless:

The CDBG/Housing consultant attended the bidder's conference on Monday for the State Emergency Solutions Grant (ESG) funding. This source must primarily benefit Antioch, Pittsburg, Concord and Walnut Creek and is about \$500k. It can be used to fund homeless outreach, emergency shelter, and 40% must be used for Rapid Rehousing of homeless persons. The Consultant is working with the County Homeless Program, ESG staff at the County, and State to ensure that these funds are coordinated with the upcoming Coordinated Entry RFP coming soon.

The County Homeless Program has leveraged a HUD grant of almost \$500k with another \$500k plus to implement Coordinated Entry in Contra Costa County. Coordinated Entry fundamentally changes the way homeless consumers enter and move through the homeless systems of care, and coordinates all efforts of nonprofit agencies to increase efficiency. Coordinated Entry streamlines access and referral, ensures fair and equal access, standardizes tools and practices, incorporates a "Housing First" approach, and prioritizes those most in need. Goals include homeless prevention and diversion to other systems, increasing exits to permanent housing, reducing waitlists, creating system flow of permanent supportive housing units by "graduating" participants to lower levels of support as soon as possible, and maximizing resources by matching highest need with most intensive resources.

Primary entry into the system will be through new CARE Centers (Coordinated Assessment Resource Centers). These former Multi-Service Centers will be enhanced to provide additional services. CARE centers will:

- Meet basic needs of homeless (showers, laundry, mail, food)
- Provide case management
- Act as a Warming/Cooling Center
- Conduct a Housing Assessment of clients
- Provide housing navigation services
- Provide health care services

The homeless outreach teams and 2-1-1 will provide emergency contact and other services, and guide homeless persons to the CARE Centers for one-stop services.

County, City, and agency staff continue to meet to find a suitable location for East Contra Costa County's CARE Center. The East County Multi-Service Center used to be co-located with the Don Brown Shelter on 4th Street. However, the surge of homeless persons in East County overwhelmed the facility and neighborhood and the center was closed when funding ran out to the agency providing this service. CARE Centers are CRITICAL to getting homeless persons off the street and connected to services and housing.

PUBLIC WORKS UPDATES

Administration

- Contra Costa County Public Works Department will perform roadwork on Vasco Road from the Alameda County line north to Camino Diablo Road on June 1 and 2, 2016. The work will occur between the hours of 9:00 a.m. and 4:00 p.m., to replace roadway delineators. The purpose of the delineators and rumble strips is to increase driver awareness and safety when travelling through this commute corridor. This work may be rescheduled based on weather conditions. Electronic message boards will alert drivers of the scheduled work. There will be traffic control through the work area and drivers can expect delays.
- Contra Costa Water District (CCWD) announced that they have signed a settlement agreement with the California Department of Water Resources (DWR), which according to CCWD will “protect its customers, facilities, and operations if the Bay Delta Conservation Plan/WaterFix (CWF), aka the ‘twin tunnels’, is built.” The March 29th CCWD News Release also states, “The agreement is an insurance policy to protect the unique water quality and supply issues raised by CCWD”. As a result of this settlement, CCWD has withdrawn its protest of the DWR Petition to Change Diversion locations proposed as part of the CWF. The documents related to this settlement are posted on the CCWD website <http://www.ccwater.com/317/Bay-Delta-Conservation-Plan-Comments>. The CCWD Board of directors held a meeting on April 6th to explain the details of the agreement and respond to questions from the public. They have also mailed out a letter to each customer explaining the settlement. Antioch residents will receive a copy of the letter as we purchase our raw water from CCWD before treating it and distributing to our customers.
- February 2016 brought us to the end of the initial water conservation mandate issued by the State of California. The City of Antioch was required to conserve 28% based on 2013 usage through the month of February 2016. Thanks to your outstanding efforts, our total cumulative reduction since July 2015 is 29.78%. **At the end of January 2016, the State extended its mandatory conservation order through October 2016.** Final guidance is still being worked out as the State monitors the snow pack and reservoir levels through this winter. Please continue to conserve this valuable resource and plan on conserving throughout 2016. Outdoor water conservation will be the primary focus of the City’s program, as well as fines for wasteful practices as identified in the Water Conservation Resolution adopted by the City Council on May 12th, 2015. All Antioch customers were mailed a letter explaining the program and prohibitions, as well as 2013 monthly water usage. Examples of prohibitions are: three day per week residential outdoor watering, no watering between the hours of 9:00 a.m. and 5:00 p.m., shut off nozzles required on all hoses, and drinking water available only upon request at restaurants. Contra Costa Water District has incentives, such as residential high-efficiency clothes washer rebates, water-efficient landscape rebates and smart sprinkler timer rebates. More information on water conservation programs and ideas on how to conserve

water can be found at www.ccwater.com or www.antiochwater.com. Customers who are not in compliance with drought restrictions can be reported to the Antioch Drought Hotline at (925) 779-6140.
