## **MONTHLY NEIGHBORHOOD CLEAN-UP**

The Antioch Police Department is excited to announce the 71st installment of the Neighborhood Cleanup Program. This is a collaborative community effort which involves active participation from The Antioch Police Department Crime Prevention Commission; Neighborhood Watch Program; Volunteers in Police Service; community volunteers and the Public Works Department.

This event will occur on Saturday, June 4th from 9:00 a.m. to 11:00 a.m. Volunteers should meet/check in at the Antioch Water Park. In recognition of *National Trails Day*, we will be partnering with the Parks and Recreation Division to clean along local walking trails, the Skate Park, and other designated areas. Volunteers will receive trail maps, instructions, and the equipment necessary to accomplish the goal. The targeted area is within walking distance. Excluding inclement weather, future Neighborhood Cleanup events are scheduled for the first Saturday of every month and the locations will be announced in advance.

The City of Antioch Neighborhood Cleanup program is not just for residential neighborhoods. It is a program that will change venues on a monthly basis and it will include business and commercial areas as well. Neighborhoods that are free of trash and refuse are inviting, and a clean community instills a sense of community pride. Remember, cleaning up your neighborhood can make life better for your family, your neighbors and your community!

## **ADVENTURES IN FUN AND FITNESS**

The Recreation Department received a Sponsorship Grant from Kaiser Permanente in the amount of \$5,000 to support the 2016 Summer "Adventures in Fun and Fitness" mobile Recreation Program. The drop-in day camp provides healthy and active recreation programs three days a week during the month of July at City Park and Contra Loma Estates Park. Program flyers have been distributed to the elementary schools north of Highway 4 and more information will be forthcoming. "Adventures in Fun and Fitness" can accommodate up to 45 elementary aged youth daily and there is no advance program registration or fees required thanks to community sponsors.

Programs funded for 2016-17 are finalizing their budgets and goals and the City is getting ready to write the renewal contracts. The CDBG consultant will conduct final monitoring visits for the year, and ready for closeout on June 30<sup>th</sup>. The Consolidated Annual Performance Evaluation Report (CAPER) for FY 2015-16 is due to HUD no later than September 30<sup>th</sup>.

## **Housing:**

Construction conferences continue weekly with all funding parties of the Satellite Tabora Gardens development. The bid solicitation package is scheduled to be published 6/3/16 and bids to be due to the general contractor by 7/8/16. Information will then be finalized for the construction loan, which shall be reviewed by Wells Fargo. Closing is estimated to occur mid-August. A date for the groundbreaking will be determined in July.

The Housing Consultant continues to enter additional information on each loan to complete all fields of new Housing Loan monitoring system by CDS.

## **Homeless:**

The CDBG/Housing consultant attended a two-day regional Zero: 2016 Action Camp last week that brought together the Contra Costa, Santa Cruz, and Sacramento teams that are working on homelessness. Contra Costa met its original number of homeless Veterans to house about three months after the target date of Dec 31, 2015. However, as the County converted to a by-name list that is verified by the Veteran's Administration in Martinez, we found that the **inflow of Veterans becoming homeless is about 28 per month**, which is much higher than expected. The leadership team, which includes the VA Homeless Program Manager, will be working hard over the next two months to determine the causes of these Vets becoming homeless and see what can be done to prevent it from occurring.

The Zero: 2016 Campaign tracking shows that **Contra Costa will be on track to reach "functional zero" for Veterans by about October 2016**. Functional zero means that our housing placement rates are greater than the number of Veterans entering into homelessness each month. We will then be able to house and end the homelessness of

any Veteran who wishes to have housing, which is the first goal of the Zero: 2016 campaign.

The second goal is to reach functional zero for chronically homeless persons. HUD has just changed the definition of chronically homeless, and the County is working with its Homeless Management Information System (HMIS) provider to update software for this change so that it can produce a by-name list of all chronically homeless. Once that is done, we will know how many we need to house, and can begin working on a goal and target for reaching zero.

### State ESG Funding

Antioch's consultant is working with groups which may wish to apply to conduct homeless outreach in the County, and are considering applying for the State Emergency Solutions Grant (ESG) funding. State ESG totals about \$500k and can be used to fund homeless outreach, emergency shelter, and 40% must be used for Rapid Rehousing of homeless persons. The Consultant is working with the County Homeless Program, ESG staff at the County, and State to ensure that these funds are coordinated with the upcoming Coordinated Entry RFP coming soon.

### East Contra Costa CARE Center location

County, City, and agency staff continue to meet to find a suitable location for East Contra Costa County's CARE Center. The East County Multi-Service Center used to be co-located with the Don Brown Shelter on 4th Street. However, the surge of homeless persons in East County overwhelmed the facility and neighborhood and the center was closed when funding ran out to the agency providing this service. CARE Centers are CRITICAL to getting homeless persons off the street and connected to services and housing.

## **PUBLIC WORKS UPDATES**

### Administration

- Contra Costa Water District (CCWD) announced that they have signed a settlement agreement with the California Department of Water Resources (DWR), which according to CCWD will “protect its customers, facilities, and operations if the Bay Delta Conservation Plan/WaterFix (CWF), aka the ‘twin tunnels’, is built.” The March 29th CCWD News Release also states, “The agreement is an insurance policy to protect the unique water quality and supply issues raised by CCWD”. As a result of this settlement, CCWD has withdrawn its protest of the DWR Petition to

Change Diversion locations proposed as part of the CWF. The documents related to this settlement are posted on the CCWD website <http://www.ccwater.com/317/Bay-Delta-Conservation-Plan-Comments>. The CCWD Board of directors held a meeting on April 6<sup>th</sup> to explain the details of the agreement and respond to questions from the public. They have also mailed out a letter to each customer explaining the settlement. Antioch residents will receive a copy of the letter as we purchase our raw water from CCWD before treating it and distributing to our customers.

- February 2016 brought us to the end of the initial water conservation mandate issued by the State of California. The City of Antioch was required to conserve 28% based on 2013 usage through the month of February 2016. Thanks to your outstanding efforts, our total cumulative reduction since July 2015 is 29.78%. **At the end of January 2016, the State extended its mandatory conservation order through October 2016.** Final guidance is still being worked out as the State monitors the snow pack and reservoir levels through this winter. Please continue to conserve this valuable resource and plan on conserving throughout 2016. Outdoor water conservation will be the primary focus of the City's program, as well as fines for wasteful practices as identified in the Water Conservation Resolution adopted by the City Council on May 12<sup>th</sup>, 2015. All Antioch customers were mailed a letter explaining the program and prohibitions, as well as 2013 monthly water usage. Examples of prohibitions are: three day per week residential outdoor watering, no watering between the hours of 9:00 a.m. and 5:00 p.m., shut off nozzles required on all hoses, and drinking water available only upon request at restaurants. Contra Costa Water District has incentives, such as residential high-efficiency clothes washer rebates, water-efficient landscape rebates and smart sprinkler timer rebates. More information on water conservation programs and ideas on how to conserve water can be found at [www.ccwater.com](http://www.ccwater.com) or [www.antiochwater.com](http://www.antiochwater.com). Customers who are not in compliance with drought restrictions can be reported to the Antioch Drought Hotline at (925) 779-6140.
