

Transportation Permit Guidelines and Application Instructions

An oversized vehicle permit is required when:

- The vehicle gross weight is equal to or greater than 80,000 pounds.
- Pole or pipe dolly trailer is 80 feet in length.

Other important considerations:

- When hauling construction equipment the vehicle width must be less than 10 feet.
- When hauling anything other than construction equipment, the vehicle width must be less than 102 inches.
- A pilot car is required if a vehicle is more than 70 feet long or 12 feet wide.
- Trucks not requiring oversized vehicle permit are required to use truck routes.

Permit Application Instructions:

- Complete application and email to CityEngineer@antiochca.gov or fax the application to City of Antioch Traffic Engineering at (925) 779-6180.
- Allow 24 business hours for a permit to be processed. Example: If you email/fax a permit application into the City on Friday at 11:00 AM expect to receive it back by the following Monday at 11:00 AM.
- Permit cost is \$16.00. You will be billed quarterly by the City of Antioch (Jan-Mar) (Apr-Jun) (July-Sept) (Oct-Dec). Please include your billing address if you are a new applicant. DO NOT SEND A CHECK WITH YOUR APPLICATION.
- The City of Antioch issues single trip permits only. Annual permits are not issued.
- Should you have more questions regarding transportation permits please call Traffic Engineering at (925) 779-7080 or email CityEngineer@antiochca.gov.
