

Public Works crews continue clean-up efforts from the windstorms. PW responded to over 30 trees down with most blocking the roadway or otherwise impacting our residents. The five-day forecast is not anticipating high winds in our area however we want to assure you that Public Works is prepared for anything that may come our way 24/7:

- Storm Drain Inlets in City Streets Cleaned and/or Cleared
- Chainsaws & Equipment - Fueled and Prepared
- Emergency Generators and Pumps – Inspected, Tested and Prepared
- City Vehicles - Fuel Tanks Filled and Ready to Respond
- Barricades - Prepared and Ready to Post
- Sand Bag Station - Inspected and at Capacity – 1201 W 4th Street
- Proactive Pothole Crew – Prior to During Wet Weather
- Nighttime Light Survey – Street Light Outages & Faded Reflective Signs
- Clean, Clear, and Inspect V-Ditch Drainage Channels to prevent flooding.
- Maps – Updated, Printed and Stocked in Crews Vehicles
- Notices – Communications ready via Email, Facebook, Website and SeeClickFix
- Participate in PG&E conferences with State, County & other agencies for current and accurate information.

For your wellbeing and safety, keep a watchful eye on your environment inside and outside. Here are some actions to help you prepare for emergencies:

- Create a safety plan for all members of your family and do a test run.
- Keep a back up power device charged and readily available.
- Test all your flashlights and make sure everyone knows where to find them.
- Keep cash on hand and a full tank of gas.
- Practice manually opening your garage door.
- Unplug electronics to avoid damage caused by surges when the power is restored.
- Refrigerators keep food cold for about 4 hours and a full freezer for about 48 hours.
- Use generators, camp stoves or charcoal grills outdoors only.
- Keep a printed list phone numbers of friends and family.
- Walk through these steps with the people you care about so they too are prepared.
- Treat traffic signal outages as a stop sign, always stop, look and listen.

Check PG&E's website psps.ss.pge.com/ for updates. Don't be surprised, check forecasted weather at weather.gov. Register for local community alerts at cwsalerts.com/ If you see a downed power line assume it is energized and keep away. Call 911 immediately!

Please report urgent or hazardous issues by phone; otherwise any of the following contact options will get you in touch with Public Works. ***We are ready to help you!***
