City launches new website

ANTIOCH, CA - The City of Antioch is excited to announce the launch of its redesigned website and new domain name at www.antiochca.gov. The site has a fresh, contemporary look and will be easier for residents and customers to navigate through with an improved search engine to help users more easily find the information they need.

The new site's graphics, navigation, and content provide a clear window into City governance, operations, and services while making it easy for users to access information on activities and opportunities, request services, and interact with City staff. The site takes City Services to our local community, businesses and beyond, furthering our commitment to accessible, and efficient local government.

Website improvements also include clarifying content and adding consistent navigation at each page header. In addition, the new format is compatible with smartphones and tablets by automatically reformatting to the device being used.

"We are excited to have a website that is easier to use and provides better engagement for our residents," said Ron Bernal, Antioch City Manager. "The new site gives us the opportunity to provide more transparency about City business and also informs our community about important topics, projects and City happenings."
